Property taxes for the Base Year shall be computed for this purpose by multiplying the general rates for taxes payable in the year of execution of the Lease by the assessed value for the first year in which the land and the completed Building have been assessed for general property taxes. The portion of such property taxes allocated by Landlord to the automobile dealership occupying the basement and a portion of the first floor of the Building shall be excluded from the definition "property taxes". Property taxes for the Base Year shall be computed for this purpose by multiplying the general property rates for taxes payable in the year of execution of the Lease by the assessed value for the first year in which the land and the completed Building have been assessed for general property taxes. All expenditures scheduled less often than annually shall be prorated over the period to which such expenditures are applicable. In the event, because of a major capital improvement or by the use of automation, the operating expenses in any year after the base year are reduced, then the operating costs for the Base Year shall be reduced for the purpose of determining escalation rent as though such improvement or automation had been in effect during the Base Year.

E. "Calendar Year" as used in this paragraph 3 shall mean January 1 through December 31, inclusive.

F. ### Tribute Paid to Late Justice Byron O. House.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom, has summoned to eternal life Byron O. House, Justice of the Supreme Court of Illinois; and

WHEREAS, Justice House was a man for whom the legal profession was more than simply a way of earning a living: for him it was a way of life and a family tradition as well; for he was the son of a lawyer and the father of a lawyer; and when he was elected to the high court, it was to take the place of his brother-in-law, Justice Ralph Maxwell; and

WHEREAS, Justice House received his law degree from the University of Illinois in 1926 and became a prominent attorney in 30 years of practice; he served as state's attorney of Washington County and became a circuit judge in 1956; a year later he was elevated to the Supreme Court; and

WHEREAS, Justice House believed that "the law is living and dynamic rather than static"; he sought always, throughout his judicial career, to apply that belief to the hundreds of cases that came before him and his colleagues on the bench; and he labored constantly to make the administration of justice in Illinois more efficient and more effective; and

WHEREAS, Justice House will be remembered as a man who was both affable and hard-working, a man who was at home in both the cloistered life of a learned profession and in the outdoor life of the sportsman; now, therefore,

*Be It Resolved,* That the Mayor and members of the City Council of the City of Chicago, in meeting assembled this 8th day of October, A.D. 1969, declare their regret at the passing of Justice Byron O. House, a distinguished jurist, and extend to his family their sincere sympathy; and

*Be It Further Resolved,* That a suitable copy of this memorial resolution be presented to the family of Justice Byron O. House.

Alderman Sperling moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon said proposed resolution. The motion *Prevailed.*

On motion of Alderman Sperling said proposed resolution was *Adopted,* unanimously, by a rising vote.

### *Court Decisions.*

Also communications from the Law Department addressed to the City Council, signed by Richard F. Friedman and Howard C. Goldman, Assistants Corporation Counsel and Marvin E. Aspen, Head of Appeals and Review Division, transmitting the following decisions, which were *Placed on File:*

*City of Chicago, Plaintiff-Appellant, vs. Severn Provus and Birdell Provus, Defendants-Appellees, Appellate Court No. 52693.* On September 30, 1969 the Appellate Court of Illinois rendered its opinion in the above entitled cause, affirming the judgment of the Circuit Court of Illinois. The plaintiff City filed a complaint against the defendants alleging twenty-one violations of the building ordinances. The defendants alleged the affirmative defense of estoppel by verdict as to four of the alleged violations in that an earlier case the identical defendants for the same four violations were found not guilty. The principal contention of the City in its appeal was that the Supreme Court of Illinois had relaxed the doctrine of estoppel in review cases and ruled that a prior judgment was subject to collateral attack where the municipality is exercising police powers where the public health and safety is affected. In the instant case the Appellate Court did not agree that the doctrine should be so extended.

*933-935 N. State Corp., Ira Cruenberg, President, Licensee-Plaintiff-Appellant vs. Richard J. Daley, Mayor and Local Liquor Control Commissioner of City of Chicago and License Appeal Commission of the City of Chicago, Defendants-Appellees, Illinois Appellate Court No. 53220.* This was an appeal from the findings of the Circuit Court of Cook County which sustained the ruling of the License Appeal Commission and the Local Liquor Control Commissioner revoking the liquor license of plaintiff on the grounds that he permitted lewd and indecent performances on the premises in violation of the law. The Appellate Court reversed the finding of the two Commissions and the lower Court holding that such decision was against the manifest weight of the evidence.

*William E. Davern, Jr. Plaintiff-Appellee, vs. Civil Service Commission of Chicago, Defendants-Appellants, Illinois Appellate Court No. 52147.* The Civil Service Commission of the City of Chicago had disapproved certification of plaintiff as a Chicago patrolman and ordered his name removed from the eligible list. The Circuit Court sitting in administrative review, reversed the decision and order of the Civil Service Commission. The Appellate Court held that the evidence adduced before the Civil Service Commission was mere heresay. Judgment of the Circuit Court is therefore affirmed.

As compensation for the privileges granted hereunder, and in addition to the rental charge hereinafter provided, Tenant agrees to pay to Landlord during each lease year of this Agreement, as hereinafter defined, and based on such lease year, a fee (hereinafter referred to as "Percentage Fee") equal to two per cent (2%) of the annual gross revenues, as hereinafter defined, derived by Tenant from its operations on, in, or from the Demised Premises. The aforesaid Percentage Fee shall be due monthly and paid on or before the 15th day of the calendar month next succeeding each and every calendar month of the term or portion thereof, on the basis of the Tenant's gross revenues for the preceding month. Each such monthly payment shall be made to the City Comptroller of the City of Chicago (hereinafter referred to as "Comptroller") and shall be accompanied by a report to Landlord showing Tenant's gross revenues for said month and cumulatively for the lease inclusive of said month. A duplicate copy of such report shall be sent to the Commissioner of Aviation of the City of Chicago (hereinafter referred to as "Commissioner of Aviation") at the same time.

In addition to the percentage fee hereinabove mentioned Tenant shall pay to Landlord at the Office of Comptroller on or before the first day of each calendar month during the term hereof and any extensions thereof, a monthly rental of Two Thousand Two Hundred Forty-two and 39/100 Dollars ($2,242.39), in advance, predicated on an annual rate of ten cents (10¢) per square foot of ground area within the Demised Premises. "Gross Revenues", as used herein shall mean and include the total gross receipts derived by Tenant from any and all sources of business conducted on, in, or from the Demised Premises, including, but not limited, to the sales of all foods, beverages, and for services related thereto but for no other purposes whatsoever, by aircraft using the Airport; said food and food products shall not be consumed at the Airport. Said term shall not include, however, the receipts, if any, from the sale or exchange of Tenant's trade equipment, automotive vehicles, furniture, fixtures, furnishings, or leasehold improvements.

"Lease Year", as used herein shall mean a full year. The first lease year shall commence on the first day of the term hereof. Each succeeding and consecutive lease year shall begin on the anniversary of said day.

### *Article III*

Landlord hereby grants to Tenant a non-exclusive privilege, in common with others that Landlord may from time to time so authorize, to operate at the Airport a business of preparing, handling, and selling meals, food and beverages to be served as in-flight meals on aircraft and for services related thereto but for no other purpose whatsoever.

In connection therewith Tenant is granted the exclusive use of the Demised Premises, subject to the terms and provisions hereof and to rules and regulations promulgated by Landlord, for the foregoing privileges and for the operation of related administrative offices, parking, loading, unloading of aircraft trucks, delivery trucks or automobiles of employees and others having business with Tenant, and for no other purpose whatsoever. It is understood that parking on the Demised Premises will be at all times without charge and will only be permitted for and in connection with Tenant business.

Landlord covenants that it shall not during the term hereof grant to any other individual, firm, or corporation, occupying space on the Airport, a similar privilege on terms or conditions more favorable than those granted to Tenant by the provisions of this Agreement.

### *Article IV*

Tenant, after securing necessary permits therefor, shall, at its own cost and expense, erect and install on the Demised Premises structures and improvements (hereinafter referred to as "Flight Kitchen") at a total capital expenditure of not less than Five Hundred Thousand Dollars ($500,000), including architect's and engineer's fees, cost of plans and specifications, and other costs incidental to such erection and installation. Plans and specifications, and changes thereto, for all such structures and improvements shall be subject to the advance approval in writing of the Commissioner of Aviation and Commissioner of Public Works of the City of Chicago (hereinafter referred to as "Commissioner of Public Works").

During the period of construction, all construction work, workmanship, materials and installations involved in or incidental to the construction of the Flight Kitchen shall be subject at all times to inspection by Landlord. Tenant shall give or cause to be given to the Commissioner of Aviation and Commissioner of Public Works advance notice before starting any new work, and shall provide and cause its contractors and sub-contractors to provide reasonable and necessary facilities for inspection. Tenant shall cause all construction, work, workmanship, materials, and installations to be in full compliance with plans and specifications.

Tenant shall reimburse Landlord for the cost of reviewing said plans and specifications, inspections or other related engineering services upon receipt of a warrant from Landlord.

Landlord has constructed roadways and lines for water, sewage, electricity, gas and storm drainage in the vicinity of the Demised Premises as indicated on Exhibit "B" attached hereto and made a part hereof. Tenant is granted the right and privilege, at its own expense, to continue the construction of such roadways, lines, and drainage ditches to serve the facility to be constructed on the Demised Premises, all in accordance with plans and specifications as outlined and approved by the Commissioner of Aviation and the Commissioner of Public Works.

It is understood and agreed that prior to commencement of construction, the plans of Flight Kitchen shall be submitted to the District Airport Engineer of the Federal Aviation Administration, pursuant to Part 77 of the Federal Aviation Regulations. Evidence of such submission and action thereon shall be transmitted to the Commissioner of Aviation and the Commissioner of Public Works.

Upon completion of building it shall thereafter not be enlarged without in each case the consent in writing of the Commissioner of Aviation and the Commissioner of Public Works first had and obtained and permits received therefor.

Tenant shall at all times throughout the term hereof maintain the Flight Kitchen and all other portions of the Demised Premises in good and serviceable condition and repair.

The Tenant shall cause to be removed any and all liens of any nature arising out of or because of any construction performed by the Tenant or any of its contractors or sub-contractors upon the Tenant's premises or arising out of or because of the performance of any work or labor to it or them at said premises or the furnishing of any materials to it or them for use at said premises.

### *Article V*

Tenant shall have the right, throughout the term of this Agreement and for use on the Demised Premises hereunder, to lease certain restaurant trade equipment, furniture, and fixtures which will in fact be owned by a reputable equipment rental company approved by the Commissioner of Aviation and be rented to Tenant either directly from such rental company or by way of an equipment sublease or assignment of an equipment sublease from an equipment sublessor. If Tenant elects to exercise such right, Landlord agrees to recognize in such equipment the property rights therein of the equipment lessor, sublessor or assignee. Provided, (1) that prior to installation or use of any leased equipment, Landlord shall be furnished with a listing thereof which shall be kept current by appropriate written notice of amendment by Tenant to Landlord; and (2) that all such leased equipment shall bear a permanently affixed identification indicating its ownership by the particular lessor, sublessor, or assignee.

Landlord agrees that all such items of leased equipment shall be and remain personal property notwithstanding the fact the same may be attached or affixed to real property. Tenant, and the lessor, sublessor, or assignee to the extent of their respective interests in such equipment, shall have the right at any time to remove or replace any and all such equipment, regardless of whether attached or affixed to real property; provided, that any damage caused to real property by such removal or replacement, shall be repaired to the satisfaction of Landlord by and at the expense of Tenant.

Except as herein provided, Landlord expressly waives any claim arising by reason of any Landlord's lien or otherwise, with respect to leased trade equipment. With respect to trade equipment installed or used by Tenant which are not under lease, Tenant shall have the right at any time during the term or upon termination of this agreement to remove or replace such non-leased trade equipment; Subject, However, to any valid lien which Landlord may have thereon for unpaid fees or charges, and Provided, that upon removal of any such facilities, Tenant shall at its sole expense restore the premises to a condition satisfactory to Landlord. Tenant shall be deemed to have abandoned to Landlord any trade equipment and other property of Tenant which it has failed to remove from such premises within fifteen (15) calendar days after the end of the period of this Agreement or effective date of termination thereof, unless Landlord shall grant in writing a further period for this purpose.

"Trade equipment", as used herein shall mean furniture, furnishings, special lighting fixtures, draperies, decorations, appliances, trade fixtures, and equipment, furnished and installed or used by Tenant.

### *Article VI*

Tenant shall also install, maintain, and operate such obstruction or warning lights on structures in or constituting part of the Demised Premises as may from time to time be required to conform to Federal Aviation Agency standards or to conform to standards prescribed by any other governmental agency having jurisdiction.

Tenant shall not install, erect or place, or permit others to so do, any illuminated signs, placards, displays or other advertising media on Flight Kitchen or elsewhere on Airport, without the prior written consent of the Commissioner of Aviation.

Landlord, by its representatives, shall have the right at any reasonable time, and as often as it considers necessary, to inspect the Demised Premises and (without any obligation so to do) to enter thereon to direct Tenant to make ordinary repairs to insure a continuing quality.

### *Article VII*

Title to the said Flight Kitchen and related improvements to the Demised Premises and to any and all subsequent alterations, modifications, and enlargements thereof, shall upon completion vest in Landlord.

In the event that the Demised Premises are required for Airport purposes prior to the expiration of this Agreement, the Commissioner of Aviation may, upon sixty (60) days advance written notice to the Tenant, direct Tenant to vacate the same provided that Landlord, within sixty (60) days after Tenant's removal therefrom, will pay to Tenant the unamortized portion of the cost of the permanent structures and improvements constructed and installed thereon; such amortization to be computed on a straight line basis over the period from the completion of said improvements to the expiration date of the initial term hereof.

### *Article VIII*

Landlord hereby grants to Tenant the right of access and ingress to and egress from the Demised Premises by Tenant and its employees, contractors, suppliers, servicemen, sublessees, guests, patrons and invitees; provided, that such rights of access, ingress and egress, are at all times exercised in conformance with any and all regulations promulgated by Landlord or the Commissioner of Aviation or other lawful authority, for the care, operation, maintenance and protection of the Airport and the public.

Tenant and its employees, invitees, and those doing business with it shall have no right hereunder to park vehicles upon the Airport premises, other than in places demised to Tenant pursuant to this Agreement, or except in regular parking areas upon payment of regular charges therefor.

### *Article IX*

Tenant shall provide a complete and proper arrangement for the adequate sanitary handling and disposal off the Airport of all trash, garbage and other refuse caused as a result of the operation of its business. Tenant shall provide and use suitable covered metal receptacles for all garbage, trash and other refuse on or in connection with the Demised Premises. ### *Article X*

Tenant shall not be obligated to operate the Demised Premises or to pay ground rent therefor during any time when all of the Demised Premises shall be untenantable, as determined solely by the Commissioner of Aviation, through no fault or negligence of Tenant, its employees and agents. In the event the Demised Premises are partially untenantable, as determined solely by the Commissioner of Aviation, through no fault or negligence of Tenant, its employees and agents, Tenant shall not be obligated to operate such part of the Demised Premises and the rent shall be proportionately and equitably abated. In the event that the Airport shall be closed for any period of time by any order or direction of Landlord or any other governmental authority or agency, or by any order or direction of any court of competent jurisdiction, the rental shall abate for the period of such closing.

### *Article XI*

Tenant, at the expense of Tenant, shall keep in force, during the term of this Agreement, insurance issued by responsible insurance companies, in forms, kinds and amounts as determined and directed by Comptroller for the protection of Landlord and/or Tenant. Said insurance may include, but need not be limited to, insurance coverages commonly known as, or similar in kind to, Public Liability, Products Liability, Property Damage, Fire and Extended Coverage, Workmen's Compensation, Scaffolding Act, and such other insurance coverage as deemed required in the sole determination of Comptroller. All policies or endorsements thereto shall in all cases where possible name Landlord as co-insured thereunder.

In event the improvements on the Demised Premises are financed by a loan or loans for that purpose secured by an assignment of Tenant's interest in and to this Agreement, the fire and extended coverage insurance on such improvements shall be payable to such assignee, subject to an agreement (which may be contained in such assignment) that the proceeds thereof shall be applied to the cost of rebuilding, but that if for reasons beyond the control of Tenant and such assignee the said improvements cannot be rebuilt, or if it would be impractical at the time to so rebuild, then the proceeds of such insurance shall be applied first to the payment of any such then outstanding loan and the balance thereof shall be paid over to the Landlord.

Upon determination by said Comptroller of all Insurance required, in the forms, kinds and amounts directed to be procured, Tenant shall deliver all policy originals or duplicate originals and endorsements thereto or certificates showing such insurance to be in effect, to Comptroller which shall be appended hereto as Exhibit "C".

In any event, Tenant is not to commence to exercise any of the rights and privileges granted under this Agreement until such time as all insurance directed and required to be furnished by Tenant is in full force and effect.

Tenant expressly understands and agrees that any insurance protection furnished by Tenant hereunder shall in no way limit its responsibility to indemnify and save harmless Landlord under the provisions of this Agreement.

Tenant shall, before commencing construction of Flight Kitchen, furnish to Comptroller a Performance Bond in form similar to City Form No. P. W. O. 62 in the full amount of the Flight Kitchen contract with sureties satisfactory to said Comptroller.

### *Article XII*

Landlord shall not be liable to Tenant, or to Tenant's agents, representatives or employees for any injury to, or death of any of them or of any other person or for any damage to any of Tenant's property or loss of revenue, caused by any third persons in the maintenance, construction or operation of said O'Hare Airport, its appurtenances, facilities and equipment, or caused by and any third persons using said Airport or its appurtenances, facilities and equipment, or navigating any aircraft on or over said Airport, whether such injury, death or damage is due to negligence or otherwise. Third persons as used herein shall include the United States of America, State of Illinois or any of their agencies and all persons other than the City of Chicago.

Except as to the Demised Premises the Landlord reserves the right to regulate, police, and further develop, improve, reconstruct, modify or otherwise alter said O'Hare Airport and any portion in such manner as Landlord sees fit, regardless of the desires or views of the Tenant.

The Tenant shall assume all risks incident to or in connection with its business to be conducted hereunder and shall be solely responsible for all accidents or injuries of whatever nature or kind to persons or property caused by its operations at said Airport and shall indemnify, defend and save harmless the Landlord, its authorized agents and representatives, from any penalties for violation of any law, ordinance or regulation affecting its operations, and from any and all claims, suits, losses, damages or injuries to persons or property of whatsoever kind or nature arising directly or indirectly out of the operation of such business, or resulting from the carelessness, negligence or improper conduct of the Tenant, or any of its agents or employees.

Landlord shall not be liable to Tenant for damage to property of Tenant or any loss of revenues to Tenant resulting from Landlord's acts, omission or neglect in the maintenance and operation of the Airport facilities.

### *Article XIII*

In the event the building to be constructed upon the Demised Premises shall be damaged or destroyed by fire or other casualty, the same shall be promptly repaired or rebuild by Landlord at its expense from, after and only to the extent of insurance proceeds received by Landlord therefor, but Landlord shall not be obligated to repair or rebuild any fixtures, equipment and other personal property installed by Tenant pursuant to this Agreement.

In the event of any damage or destruction by fire or other casualty to the Demised Premises Tenant shall immediately, at its expense, replace and repair any and all fixtures, equipment and other personal property, installed by it pursuant to this Agreement.

### *Article XIV*

Tenant, its officers, agents, employees, and any other persons over which Tenant has control, shall comply with all lawful rules and regulations and amendments or supplements thereto governing or related to the use of the Airport or of the Demised Premises as may from time to time be promulgated by Landlord in the interests of health, safety, sanitation and good order which are not inconsistent with applicable rules and regulations of any Federal, State or local governmental body having jurisdiction with respect thereto.

Tenant shall at all times faithfully obey and comply with all lawful present and future laws and ordinances of Federal, State or local governmental bodies and rules and regulations lawfully promulgated thereunder, whether or not of the type enumerated, applicable to, or affecting Tenant and its operations and activities in the Demised Premises or elsewhere at the Airport not inconsistent with the provisions of this Agreement.

### *Article XV*

Tenant covenants not to assign, transfer, not to sublet, license or permit the use of the premises or any part thereof, except to a wholly owned, affiliated or subsidiary company, without the consent in writing of the Commissioner of Aviation and the City Council first had and obtained, nor permit any transfer by operation of law of its interest created thereby. Any such assignment, transfer, sublease, license or permission when and if approved shall be in writing and promptly upon execution thereof, Tenant shall furnish two (2) copies to Landlord for its files.

It is contemplated that the Tenant may seek to finance the improvements designated herein as the Flight Kitchen by obtaining a loan. It is agreed that the Tenant may, without further approval of the Landlord, assign and set over to such lender all of Tenant's right, title and interest in and to this Agreement for the purpose of securing such loan. Any such assignee-lender shall thereupon acquire no greater interest in the Demised Premises than that of the Tenant as herein provided. In event of any foreclosure under such financing, and then only during the initial term hereof, the assignee-lender shall have the further right to assign its interest in this Agreement to a person or company of good reputation and qualified to operate the type of business herein authorized and who will be subject to the same terms and conditions as herein contained.

In the event an assignment, sublease, license or permit to use the aforesaid premises, or any part thereof, is approved by Landlord, under no circumstances shall the income derived by Tenant therefrom exceed the amount of a proportionate share of Tenant's obligations and expenses, under the terms of this Agreement. Landlord expressly reserves the right to assess an extra charge against any approved assignee, sublessee, licensee or permittee hereunder.

It is expressly understood and agreed that the only activity which Tenant may conduct on or from the Demised Premises, directly or indirectly, alone or through others, is only as authorized under the terms of this Agreement.

This Agreement does not constitute either party the agent or representative of the other for any purpose whatsoever.

Landlord covenants that Tenant shall and may peaceably and quietly have, hold and enjoy the premises or space leased exclusively to it during the term of the letting thereof and any extension of said term, unless such term or extension thereof shall cease, close or expire sooner or shall be terminated as provided in this instrument.

### *Article XVI*

Tenant agrees that in performing under this agreement it shall not discriminate against any worker, employee or applicant, or any member of the public, because of race, creed, color, age or national origin, nor otherwise commit an unfair employment practice. Tenant further agrees that this article will be incorporated by Tenant in all contracts entered into with suppliers of materials or services, contractors and subcontractors, and all labor organizations, furnishing skilled, unskilled and craft union skilled labor, or who may perform any such labor or services in connection with this agreement. Attention is called to Executive Order 11246 issued September 24, 1965, 3 CFR p. 567, 1966; The Civil Rights Act of 1964, Pub. L. 88-352, July 2, 1964, 78 Stat. 241 et sub.; to the State Acts approved July 28, 1961, Ill. Rev. Stat. 1967, CH 38, Secs. 13-1 to 13-4 inclusive; July 8, 1933, Ill. Rev. To demonstrate compliance the Tenant and his contractors and subcontractors will furnish such reports and information as requested by the Chicago Commission on Human Relations.

### *Article XVII*

This Agreement shall not and will not, nor shall any copy thereof, or any statement, paper or affidavit, in any way or manner referring hereto, be filed in the office of the Recorder of Deeds of Cook or DuPage Counties, Illinois, or in any other public office, by Tenant or any one acting for Tenant and that if the same be so filed, this Agreement and each and every provision hereof shall, at the option of Landlord, be and become absolutely null and void and Landlord may declare such filing a breach of this Agreement.

### *Article XVIII*

In any of the following events Landlord, at any time hereafter, shall have the right at Landlord's election immediately to terminate this Agreement.

In the event Tenant shall fail to pay the rent in the amounts and at the times and in the manner herein provided and such failure shall continue for fifteen (15) or more days after written notice thereof shall have been given to Tenant.

In the event Tenant shall fail to keep and perform or shall violate the terms, covenants and conditions of this Agreement on its part to be kept and performed, and Tenant shall not have cured or corrected such failure or violation within thirty (30) days after written notice thereof shall have been given to Tenant.

If Tenant shall make an assignment for the benefit of creditors, or shall file a petition in bankruptcy, or shall be adjudged a bankrupt, and such adjudication be not stayed or vacated within 90 days thereafter, or the interest of Tenant under this Agreement shall be levied upon and sold upon execution or shall by operation of law become vested in another person, firm or corporation because of the insolvency of Tenant; or in the event that a receiver or Trustee shall be appointed for Tenant or the interest of Tenant under this Agreement, and such appointment has not been vacated within 90 days thereafter.

In the event Tenant shall vacate or abandon said premises, or shall permit the same to remain vacant or unoccupied without the consent of Landlord first had and obtained.

### *Article XIX*

Upon the occurence of any one or more of the events of default herein specified, Tenant's right to possession of the Demised Premises shall terminate and Tenant shall surrender possession thereof immediately. In such event Tenant hereby grants to Landlord full and free license to enter into and upon said premises, or any part thereof, to take possession thereof, with or without process of law, and to expel and remove Tenant or any other person who may be occupying the said premises, or any part thereof, and Landlord may use such force in and about expelling and removing Tenant and said other person as may reasonably be necessary; and Landlord may repossess itself of the said premises as of its former estate, but said entry of said premises shall not constitute a trespass or forcible entry or detainer, nor shall it cause a forefeiture of rents due by virtue hereof, nor a waiver of any covenant, agreement or promise in said lease contained, to be performed by Tenant. Tenant shall make no claim of any kind against Landlord, its agents and representatives by reason of such termination or any act incident thereto.

In addition to terminating this Agreement Landlord may sue for and recover all damages and rent accrued or accruing under this Agreement or arising out of any breach thereof.

Landlord may, if it so elects, pursue any other remedies provided by law for the breach of this Agreement or any of its terms, covenants, conditions or stipulations. No right or remedy herein conferred upon or reserved to Landlord or Tenant is intended to be exclusive of any other right or remedy, and each and every right and remedy shall be cumulative and in addition to any other right or remedy given hereunder, or now hereafter existing at law or at equity or by statute.

The acceptance of rent by Landlord, whether in a single instance or repeatedly, after it falls due, or after knowledge of any breach hereof by Tenant, or the giving or making of any notice or demand, whether according to any statutory provision or not, or any act or series of acts except an express waiver in writing, shall not be construed as a waiver of Landlord's right to act or of any other right hereby given Landlord, or as an election not to proceed under the provisions of this Agreement.

The obligation of Tenant to pay the rent reserved hereby during the balance of the term hereof, or during any extension hereof, shall not be deemed to be waived, released or terminated by the service of any five (5) day notice, other notice to collect, demand for possession, or notice that the tenancy hereby created will be terminated on the date therein named, the institution of any action of forcible detainer or ejectment of any judgment for possession that may be rendered in such action, or any other act or acts resulting in the termination of Tenant's right to possession of the Demised Premises. Landlord may collect and receive any rent due from Tenant, and payment or receipt thereof shall not waive or affect any such notice, demand or suit, or in any manner whatsoever waive, affect, change, modify or alter any rights or remedies which Landlord may have by virtue hereof.

*Article XX*

This Agreement shall be deemed to have been made in and shall be construed in accordance with the laws of the State of Illinois.

Notices to the Landlord provided for herein shall be sent by registered or certified United States mail, postage prepaid, addressed to the Commissioner of Aviation of the City of Chicago, City Hall, Chicago 60602, Illinois, and notices to Tenant provided for herein shall be sent by registered or certified United States mail, postage prepaid addressed to Tenant, Sky Chefs, Inc., 605 Third Avenue, New York, N.Y. 10016, or in either case to such other respective parties and addressees as the parties hereto may designate in writing from time to time, and such notices shall be deemed to have been given when so sent.

### Presentation of Medal and Certificate of Merit to Parents of Specialist 4th Class Carmel B. Harvey, Jr.

By unanimous consent Honorable Richard J. Daley, Mayor, thereupon presented to the members of the City Council Mr. and Mrs. Carmel B. Harvey, Sr. accompanied by their young son.

The Mayor then read the following citation:

> The President of the United States of America, authorized by Act of Congress March 3, 1863, has awarded in the name of Congress the Medal of Honor posthumously to Specialist Fourth Class Carmel B. Harvey, Jr., United States Army, for conspicuous gallantry and intrepidity in action at the risk of his life above and beyond the call of duty: Specialist Harvey distinguished himself as a fireteam leader with Co. B., 1st Bn., 5th Cav. 1st Cav. Div. (Airmobile), during combat operation in Binh Dinh Province, Republic of Viet Nam, on 21 June 1967.
>
> Ordered to secure a downed helicopter, his platoon established a defensive perimeter around the aircraft which shortly thereafter a large enemy force attacked the position from three sides. Specialist Harvey and two members of his squad were in a position directly in the path from the enemy onslaught and their location received the brunt of the fire from the enemy machine gun. In short order, both of his companions were wounded, but Specialist Harvey covered this loss by increasing his deliberate rifle fire at the foe. The enemy machine gun seemed to concentrate on him and the bullets struck the ground all around his position. One round hit and armed a grenade attached to his belt. Quickly he tried to remove the grenade but was unsuccessful. Realizing the danger to his comrades if he remained, and despite the hail of enemy fire, he jumped to his feet, shouted a challenge at the enemy, and raced toward the deadly machine gun. He nearly reached the enemy position when the grenade in his belt exploded mortally wounding Specialist Harvey, and stunning the enemy machine gun crew. His final act caused a pause in the enemy fire, and the two wounded men were moved from the danger area.
>
> Specialist Harvey's dedication of duty, high sense of responsibility and heroic action inspired the others in his platoon to decisively beat back the enemy attack. His acts are in keeping with the highest tradition of the military service and reflects great credit upon himself and the United States Army.

The Mayor next presented the Medal and Certificate of Merit to Mr. and Mrs. Harvey, expressing his sympathy and profound admiration for the bravery of their son. The Harvey's in turn thanked the Mayor and the members of the City Council.

The City Council and assembled guests stood and gave a standing ovation to the Harvey family.

### Appreciation Extended to Richard J. Elrod.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Assistant Corporation Counsel Richard J. Elrod lies injured at the University of Illinois Research Hospital, paralyzed from the neck down, following an attack upon him during a recent street demonstration engendered by the Students for a Democratic Society, Weatherman Faction; and

WHEREAS, Richard J. Elrod first entered the service of the City of Chicago on June 11, 1957, when he became employed as a Law Clerk in the Law Department of the City of Chicago, and, having graduated from Northwestern Law School in 1959, he was appointed as an Assistant Corporation Counsel on June 1, 1959. His outstanding ability as a lawyer and his zeal for public service soon thereafter resulted in his being promoted and named Head of the Ordinance Enforcement Division of the Law Department. He devoted many hours in the study of constitutional rights and concomitant obligations of all citizens and became expert in questions involving demonstrators and their rights and obligations, personally attending every major demonstration so as to advise police with respect to the intricate constitutional questions which arose during the course of those demonstrations, thereby safeguarding not only the rights of the demonstrators but of all citizens of the community. He personally tried many of the cases arising therefrom in Court; and

WHEREAS, On October 11, 1969, Richard J. Elrod was attending a street demonstration in his capacity as Head of the Ordinance Enforcement Division when the demonstrators broke from their previously agreed upon line of march and commenced an attack upon police, innocent bystanders, and property, at LaSalle and Madison Streets. Richard J. Elrod responded to the situation thus presented and in the course of the melee swirling around him on the sidewalk near Madison and Dearborn Streets, he was seriously injured. It is anticipated that surgery may be required and an extended program of physical rehabilitation before Richard Elrod achieves a full recovery. In this crisis, the mental and spiritual resources of this extraordinary young man reflect the same courage and determination which characterizes his performance of the arduous duties which led to his injury; now, therefore,

*Be It Resolved,* That the Mayor and members of the City Council of the City of Chicago, on behalf of the community, hereby extend to Assistant Corporation Counsel Richard J. Elrod their gratitude for the great public service he has rendered, their affection and admiration, and they join in prayers for his speedy and complete recovery; and

*Be It Further Resolved,* That a suitable copy of this resolution be appropriately engrossed and presented to Assistant Corporation Counsel Richard J. Elrod.

Alderman Keane moved to *Suspend the Rules Temporarily,* to permit immediate consideration of and action upon said proposed resolution. The motion *Prevailed.*

On motion of Alderman Keane (seconded by Aldermen Sperling, Holman, Hoellen, Simon, Despres, Cousins, Wigoda, Swinarski, Buchanan (for himself and Alderman Lupo), Krska, Rayner and Singer) the foregoing proposed resolution was *Adopted,* unanimously.

The seconding Aldermen in their remarks spoke eloquently and feelingly of the injury sustained in a despicable, cowardly attack upon one who had not only been carrying on his duty as an Assistant Corporation Counsel, but who had been on the firing line to protect the dissenters. It was pointed out that the Constitution did protect the rights of persons to assemble, but that the assembly had to be a "peaceable" one. Mr. Elrod was praised for his dedication to duty and all deplored the fact that his most promising career had been interrupted. All wished him God speed and a full recovery so that he would be restored to his family, friends and City.

Honorable Richard J. Daley, Mayor, then called upon Corporation Counsel Raymond F. Simon.

In addressing the Council Mr. Simon told of how deeply he was touched upon talking with "Dick" who expressed no bitterness over the injury he had sustained nor any self-pity. He was more concerned with his office routine, worrying whether matters were being taken care of properly. Mr. Simon said he was amazed to learn that Mr. Elrod seemed almost apologetic that he had been injured. He also spoke of how worried he had been about his image. That despite criticism to the contrary he had truly been a liberal. He had been sincerely concerned about everyone's rights.

Thereupon, Mayor Daley addressed the Council stating that he had known Dick Elrod since he had been a boy. He characterized him as being the most loyal person he had ever known, that he had been a most loyal public employee and a most loyal Assistant Corporation Counsel. He prayed that God would give him back to us soon.

### Greetings and Best Wishes Extended Sgt. William P. Noonan upon Retirement.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

> WHEREAS, Sergeant William P. Noonan has now for more than twelve years been in charge of the security detail in the Chicago City Council chambers; and
>
> WHEREAS, This meeting of the City Council will be the last such meeting at which Sergeant Noonan will serve in this capacity prior to retiring from the Chicago Police Department; and
>
> WHEREAS, The friendly, courteous and efficient manner in which Sergeant William P. Noonan has discharged his important assignment, has added dignity and warmth to these chambers and has been responsible for maintaining a decorum within the Council chambers appropriate to the important legislative functions performed herein; and
>
> WHEREAS, Sergeant William P. Noonan has served the people of Chicago for the past 37 years as a patrolman, detective, fingerprint expert, department lecturer and Sergeant and has during those years brought much joy and happiness to disabled veterans, orphans, the elderly and the entire range of institutionalized shut-ins by performing for their benefit as an accordionist and entertainer during his off hours; now, therefore,
>
> *Be It Resolved,* That the City Council of the City of Chicago, in meeting assembled this 29th day of October, 1969, commend Sergeant William P. Noonan for his many years of dedicated public service to the people of Chicago, thank him for the outstanding service which he has rendered to the City Council as a body and its members individually, and wish him continued good health and happiness with which to enjoy his retirement; and
>
> *Be It Further Resolved,* That this resolution be incorporated in the permanent record of the Journal of the Proceedings of the City Council of the City of Chicago and that a suitable copy of this resolution be presented to Sergeant William P. Noonan.

Alderman Keane moved to *Suspend the Rules Temporarily,* to permit immediate consideration of and action upon said proposed resolution. The motion *Prevailed.*

On motion of Alderman Keane (seconded by Aldermen O'Rourke, Campbell, Buchanan, Burke, Hoellen, Krska, Sheridan, Simon, Rayner, Swinarski, Staszcuk, Scholl, Kerwin, Holman, Gabinski, Cousins, Marzullo, Laurino, Singer, Hines, Sain, Sande and McMahon) the foregoing proposed resolution was *Adopted,* unanimously.

In seconding the resolution all the Aldermen mentioned they would all miss his warm smile, his friendliness and his helpfulness. He was praised as an accomplished musician, one who had given so freely of his time and his talents in order to cheer orphans, hospitalized persons and anyone in need of cheering. He was urged to return frequently for visits and all extended to his wife and himself good health and hoped that he would spend many happy days in his retirement.

The Mayor called the Council's attention to the presence of Mrs. Noonan in the audience. She was warmly applauded.

The Mayor thereupon addressed the Council stating that Bill Noonan was not facing an end, but a new beginning. He wished that there were more people who were as happy as the Sergeant. He expressed appreciation for a job well done in the City Council, and wished Mrs. Noonan and Bill a most happy retirement.

The Mayor then called upon "Bill" to address the Council.

Sergeant Noonan expressed his thanks, stating that he had been gratified to serve the Council members and that his ambition had been to do a good job for the Council, the Mayor and the Police Department.

*Section 1.* Section 11.10-5 of Chapter 194A of the Municipal Code of Chicago, the Chicago Zoning Ordinance, hereby is amended by deleting therefrom certain language, as contained in brackets below, and by adding certain language, in Italic below, as follows:

11.10-5 The Commissioner of Development and Planning may recommend and the Board of Zoning Appeals may provide such conditions or restrictions upon the construction, location and operation of a special use, including but not limited to provisions of off-street parking and loading, as shall be deemed necessary to secure the general objectives of this comprehensive amendment and to reduce injury to the value of property in the neighborhood.

An order of the Board of Appeals granting a variation in the nature of a special use shall be valid for a period not longer than twelve months from the date of such order unless a building permit is obtained or the use is commenced within such period. The Board may, at its discretion and upon adequate showing of cause, extend the period of validity of a variation in the nature of a special use for a period not to exceed [six (6)] *twelve (12)* months.

A change or increase in the area, bulk or function of any existing special use, or from those conditions specified by the Zoning Board of Appeals at the time of approval, shall constitute and be considered the same as a new and distinct special use, and as such shall be subject to the procedures for application, hearing, review and approval by the Zoning Board of Appeals as provided for in this section.

If a special use is discontinued for a period of six months or longer, such special use shall become null and void; and any subsequent reinstatement of the special use shall require a new special use permit.

## Chicago Transit Authority Requested to Install Toilet and Other Facilities in Elevated Terminal at W. 63rd St. and S. Ashland Av. (Englewood Branch).

The Committee on Local Transportation submitted the following report:

CHICAGO, October 21, 1969.

*To the President and Members of the City Council:*

Your Committee on Local Transportation, having had under consideration a proposed resolution (referred on October 8, 1969) for hearings for the installation by the Chicago Transit Authority of toilet and other facilities in its elevated terminal at 63rd and Ashland (Englewood Branch), begs leave to recommend that Your Honorable Body pass the said proposed resolution, which is transmitted herewith.

This recommendation was concurred in by 7 members of the committee, with no dissenting vote.

Respectfully submitted,

(Signed) VITO MARZULLO,

*Chairman.*

On motion of Alderman Marzullo the said proposed resolution was *Adopted,* by yeas and nays as follows:

*Yeas*—Aldermen Roti, Hubbard, Metcalfe, Holman, Despres, Rayner, Cousins, Lupo, Buchanan, Bilandic, Swinarski, Staszcuk, Burke, Krska, Sheridan, Shannon, Hines, Fitzpatrick, Campbell, Frost, Kuta, Collins, Marzullo, Zydlo, Sain, Jambrone, Biggs, McMahon, Keane, Gabinski, Sande, Laskowski, Aiello, Casey, Cullerton, Laurino, Simon, Scholl, Singer, Kerwin, Hoellen, O'Rourke, Wigoda—43.

*Nays*—None.

The following is said resolution as adopted:

WHEREAS, The ever-increasing use of public transportation has clearly demonstrated the need for additional such service; and

WHEREAS, In recognition of this critical need, the Chicago Transit Authority is expanding and improving its passenger facilities, notably through the construction of the Expressway Median Strip Systems and the new 63rd and Ashland Elevated Station; and

WHEREAS, It has been estimated that the boarding traffic (the fare-paying and/or transferring passengers) at this latter facility is in excess of 8500 persons during both the morning and evening rush hour periods, a figure which is constantly increasing; and

WHEREAS, It is an anomaly indeed that, despite the expenditure of approximately two million dollars for the construction of the 63rd and Ashland Station, no provision was made for the installation of public toilet facilities, an omission which represents a threat to the continued health and welfare of the passengers using said station, and particularly the many aged and infirmed persons from Englewood and adjacent communities on the Southwest Side of Chicago. It is also inconceivable that there are no benches for the comfort and convenience of non-rush hour passengers who must wait between trains; and

WHEREAS, It is imperative that immediate consideration be given to the installation of these very necessary conveniences in the facilities of the Chicago Transit Authority; now, therefore,

*Be It Resolved,* That the members of the City Council Committee on Local Transportation hold hearings, to which will be invited representatives of the Chicago Transit Authority and the residents of Englewood and adjacent communities, for the purpose of effecting the immediate installation of public toilets in the 63rd and Ashland Elevated Station and the adoption of a program to insure the existence of such accommodations in all future public transportation systems in Chicago.

SECTION 3. Simultaneously with the delivery of and receipt of payment for any of the new tax anticipation warrants, a like principal amount of the original warrants that were issued against the same tax that is anticipated by the new warrants, together with so much of the interest accrued thereon as the proceeds of the sale of the new tax anticipation warrants will permit, shall be paid and cancelled.

The proceeds of the sale of the new tax anticipation warrants shall be paid to the City Treasurer to restore the funds of the City of Chicago invested in the original tax anticipation warrants. Before cancellation of the principal amount of any original warrant, the City Treasurer shall separately endorse thereon the amount paid and the date of payment in the following order: (1) the principal amount so paid and (2) the amount of accrued interest paid. The City Treasurer shall also endorse upon the original tax anticipation warrants the amount of interest accrued thereon and unpaid, and the same shall not be paid until all principal and interest upon the new warrants shall be fully paid or until money has been set aside for payment thereof, if the new warrants are not presented for payment after they are called for redemption.

SECTION 4. The ordinance adopted September 17, 1969, (C.J., p. 6115), authorizing the reissuance and sale of said tax anticipation warrants at a rate of interest not to exceed six and one-half per cent (6½%) per annum, is hereby repealed.

OFFICE OF THE MAYOR
CITY OF CHICAGO

November 6, 1969.

*Honorable John C. Marcin,*
*City Clerk.*

DEAR MR. MARCIN—I, Richard J. Daley, Mayor, hereby call a special meeting of the Chicago City Council to be held in the Council Chamber on Friday, November 14, 1969, at 10:00 A.M. for the purpose of presenting the executive budget for the fiscal year 1970, in accordance with Chapter 24, Section 8-2-2, Illinois Revised Statutes, 1967.

Very truly yours,
(Signed) RICHARD J. DALEY,
*Mayor.*

## Budget Statement by Honorable Richard J. Daley, Mayor, for Year 1970.

Honorable Richard J. Daley, Mayor, thereupon read to the City Council his annual budget statement for the year 1970, as follows:

*To the Honorable, the City Council*
*of the City of Chicago:*

GENTLEMEN—On November 14, 1969, the executive budget of the City of Chicago for the year 1970 was filed with the City Clerk.

The 1970 budget for the City of Chicago government is submitted herewith for consideration and approval by the City Council.

The executive budget for 1970 calls for a total appropriation for corporate and non-corporate expenditures of $841,153,724, an increase of $81,954,670 over 1969.

The 1970 corporate, or operating budget, totals $421,218,946 compared to $361,878,172 for 1969—an increase of $59,340,774.

### *Allocation of Increases*

Increases in the 1970 corporate budget are primarily for:

Police Department, $33,487,339.

Fire Department, $8,814,109.

A five per cent increase in the compensation plan for all white collar workers, $2,824,101.

A ten per cent increase in the starting rate for physicians, hospital licensed practical nurses and licensed practical nurses, $342,000.

A 25 per cent increase in the costs of hospital and medical care insurance and the assumption by the city of half the Family Plan for all city employees, $3,984,983.

Increase in union wage scales, $4,777,118.

Matching funds for various federal and state programs, $1,000,000.

The 1970 general elections, $1,852,536.

Three paid holidays for union personnel, $333,000.

And for the mandatory allocation for additional loss and cost on taxes, $2,565,740.

Of the $59 million increase in the corporate fund for operating city government, the corporate tax levy will increase $6,677,239—an increase of 3.4 per cent. The remainder of the increase—$52,663,535 will come from non-property revenue. Increases for other funds such as library, pension, judgment tax, bond redemption and interest, which share the tax levy, amount to $14,893,966, bringing the City of Chicago total property tax levy increase to $21,571,205—a seven per cent increase over 1969.

The dollar figure allocations of the proposed budget increases and the resources from which they will be paid are among the essential elements of a budget message.

But the compilation of the figures alone—even though they will be the subject of headlines—do not genuinely reflect the considerations—the judgments that underlie the making of a budget, whether government, business or family.

A good budget must reflect needs and goals. In many ways it is a guide—a plan—for the people it serves. It should establish priorities. In a family budget these priorities would be food, clothing, and shelter. In the city budget, the priorities must be the essential responsibilities of police, fire, health, sanitation, building, and those services which are related to them. Thus in examining the city budget the first questions should be directed to these priorities, for without them there would be no city. There are other high priorities such as education, parks, sanitary disposal, county services, junior colleges, and forest preserves which are the primary concern of other taxing bodies than the city.

The total corporate property tax levy for 1970 of $203,165,539 and the new and additional funds from the state income tax, estimated at $21,131,,000 and the additional one-quarter cent sales tax, estimated at $16,400,000, is $17 million less than the amount required to finance the total appropriation for the Police and Fire Departments alone. The appropriations for the Police and Fire Departments make up more than 61 per cent of the total corporate budget.

### *Police Department*

Improving and expanding the Police Department has become the greatest concern of all municipalities—large and small. The rising crime rate throughout the nation, particularly among juveniles, the critical role of the police in demonstrations and protection of the constitutional rights of all citizens, and the growing demand for a professional police force skilled in community relations are among the highest priorities for all cities.

Although the Department projects an increase in serious crimes of 5 per cent in 1969, this is expected to be less than the national rate of increase as reported by the F.B.I. Much of the increase has been experienced during periods when large numbers of police officers have been diverted from their primary beat patrol to crowd control and mob action assignments.

Recent events have proven that Chicago has one of the most professional Police Departments in the nation. This budget reflects the city's efforts to further improve the Department.

Initiated in 1969, Chicago's Police Department training program has become the soundest in the nation. The seven-month recruit training program is managed by a joint Police Department-City College professional faculty and includes 12 semester hours of college accredited courses in the social sciences and human relations, in addition to technical police training.

During 1969, approximately 800 police officers have been enrolled on their own time in Chicago colleges and universities. Of these, approximately 700 are enrolled in the college course provided by the Public Service Institute of the Chicago City College. In 1970 a nationally distinguished panel of experts in law, criminology, and the administration of criminal justice will report to the Department and City College on its review of the Department's recruit training program and submit its recommendations for further refinement.

In 1969 the number of personnel assigned to the Gang Intelligence Unit was increased from 38 to 200 men. As a result, there was a fifteen per cent decrease in gang-related shooting incidents during the period ending October 15th compared to the same period last year and a 12.9 per cent decrease in gang shooting victims.

The Department's new neighborhood patrol system, consisting of a radio uniformed officer on foot patroling the same beat as his mobile partner, has been implemented in three police districts.

The mobile radio system has proven to be most feasible, resulting in increased arrests for serious offenses, increased visibility and citizen association with the patrol officers, and greater safety for the walking officer. The neighborhood patrol system will be expanded on a city-wide basis as technical work on the installation of remote radio receiver stations throughout the city progresses, and will be fully implemented during 1970.

With the opening of the new C.T.A. rapid transit line along the Dan Ryan Expressway, the Department added 56 patrolmen and seven sergeants to the C.T.A. section of the Task Force, bringing the strength of the unit responsible for patrol of the rapid transit system to 211 police personnel. A seaport security unit consisting of 80 policemen was set up during the year and has succeeded in minimizing the threat of thefts of material and other crimes at the city's seaport.

Morale in the Police Department is high. For example, where most cities are experiencing difficulty in recruiting and maintaining a full complement of policemen, Chicago, in the last Civil Service examination for patrolmen had more than 2500 applicants.

The budget allocates an increase of $33,487,339 for additional equipment and establishment of adequate compensation to the men who provide the most essential city service, to attract the best personnel which can be recruited, and to maintain and expand the highest standards of professionalism. The budget also provides an additional 500 men to give further protection to our citizens.

The budget allocates $20 million for the adjustment on salaries instituted in July, 1969, and for a 10 per cent salary increase for the entire force including crossing guards. Starting rates will increase from $8,712 to $9,600 and the maximum rates for first class patrolmen will increase from $11,004 to $12,120. At present, policemen reach their maximum pay after 42 months. The budget proposes after five years of service, all members of the force will receive an automatic two per cent longevity increase. For example, after five years a patrolman will receive $12,360. The two per cent longevity pay will cost $2.5 million.

The budget allocates $4,800,000 for the hiring of 500 policemen and an additional $2.2 million for 59 civilians and 61 cadets, as well as equipment and materials.

At present, the city pays the full premium individual rates for hospital and medical care insurance. The budget proposes that in addition, the city pay half the family premium rate—which would amount to approximately $190 per family.

The budget also provides $3,450,760 for a special employment program in which policemen may work an extra day a week at straight time on their off days. This will permit the use of 225 additional men on patrol each day.

In 1969 the city retained the International Chiefs of Police to conduct a comprehensive survey of the Police Department. A preliminary report recommends a major reorganization of the Department to provide greater cohesiveness and coordination. The present three bureaus will be expanded to five bureaus, each headed by a deputy superintendent, consolidating and grouping together functions and operations along lines in keeping with the latest in management techniques. The Department will implement these recommendations in 1970 as it believes they provide a maximum of supervision and coordinated effectiveness.

### *Fire Department*

Chicago also has reason to be proud of its Fire Department which has innovated techniques of fire fighting which have been the model for the nation. The Department constantly is being modernized and the recommendations of the Maatman Report are being implemented.

Consolidation of single engine companies into multiple quarters has increased the capacity of the Department to respond more quickly and with more fire-fighting power.

In keeping with their high tradition, the Department has given dedicated service to the people of Chicago.

The Fire Department increase of $8,814,109 is caused by a ten per cent salary increase for the entire force at a cost of $7,287,000 and $895,000 to provide a two per cent longevity pay increase for firemen with five years of service. The rest of the increase, $631,000 is for new equipment and materials.

### *Salaries and Wages*

The budget appropriates $2,824,101 for a five per cent increase for all employees covered by the compensation plan. As of September, 1969, the United States Bureau of Labor Statistics reported a 5.2 per cent increase in the cost of living and this is expected to rise in the course of the year.

The increase represents the policy of the city to provide adequate compensation for city workers in the face of higher living costs and to retain skilled and experienced employees.

An appropriation of $4,777,118 is allocated for increases in union scales, and $333,000 for three paid holidays.

In order to compete for the services of physicians, the budget allocates $342,000 for a ten per cent increase in their starting salaries.

The budget also provides an increase of $3,985,000 for a 25 per cent increase in the cost of hospital and medical care and the assumption by the city of half the family hospitalization plan. This budget recommendation enables the city governments to keep pace with accepted personnel practices.

### *Health Department*

The increase of $1,553,356 is primarily for 95 additional personnel of which 36 will be assigned to the mental health division and 50 will staff district health centers, infant and child welfare stations; to continue services at district health centers formerly financed by the federal government, a ten per cent increase for those under the physician's compensation plan, and a five per cent cost of living increase for all employees in the city's compensation plan, and increases for supplies and equipment.

The infant death rate for non-white infants, primarily residents of the inner city areas dropped from 39.4 in 1968 to 37.1 through September, 1969. The death rates for infants in the high risk program is 15 per thousand as compared to the city-wide rate of 29.5.

The Chicago Program for the Control of Lead Poisoning has been cited as a model for the nation. In 1969, it is anticipated that approximately 50,000 children, 5 years of age and under, will have been screened for possible lead poisoning—an increase of almost 10,000 over last year.

In 1968, the city recorded 702 lead poisoning cases, while in 1969 the city recorded one half as many cases in a ten month period. In 1968, a total of 10 deaths due to lead poisoning were reported. In 1969, through the first of November, one child died of lead poisoning.

Chicago's Rodent Control Program has been recently surveyed by the United States Public Health Service and is currently being used as a prototype in 17 cities across the nation.

In 1969, rodent control efforts were concentrated in Model Cities target areas and Health Educator Aides were employed to provide advice and guidance as well as follow-up services in 22,694 family visits in 1969. The primary emphasis is directed toward getting citizens to maintain clean homes, and to avail themselves of health care through public and private clinics.

In 1970, the Board of Health will establish the Englewood Neighborhood Health Center at 6300 South Lowe Avenue. This center will provide a full range of comprehensive public health and medical care services to more than 150,000 residents.

In June of 1970 a major new public health center will be completed to serve the residents of Woodlawn.

Working cooperatively with the Model Cities Program, the Board of Health will establish four community health centers. Their services will include maternal and child care, adult aging programs, communicable disease control, lead poisoning, and selected environmental health programs.

Utilizing Model Cities funds, the Board of Health will establish a program for training community residents for such positions as health and nurses aides. The trainees, in addition to receiving technical training, will be provided with job opportunities in neighborhood health centers.

A new patient referral service will be provided in the centers and will insure prompt handling of emergencies for residents.

A new virus laboratory will be activated in 1970 and will service the Municipal Contagious Disease Hospital and provide back-up laboratory services for the city's hospitals and physicians.

New mental health clinics will become operative in Uptown and on the Northwest side. This will bring up to 15 the total number of neighborhood mental health clinics in full time operation.

The city is indebted to Dr. Morgan O'Connell who led the Department in its vigorous efforts to serve the health needs of the people of Chicago by operating modern and innovative programs. He is a dedicated public servant.

When Dr. O'Connell informed me of his desire to resign, I asked an advisory committee to recommend the best man they could find to head up the Health Department. They recommended three men, and today I am happy to announce that I am recommending for council approval the appointment of Dr. Murray C. Brown of 1301 North Astor Street as the next Health Commissioner of the City of Chicago. He is 56 years old and is the former dean of the Meherry Medical School. He recently retired as special assistant to the Commissioner of the Environmental Control Administration of the Department of Health, Education and Welfare. I ask your earnest consideration of this able and dedicated public health official.

### *Building Department*

The increase of $1,093,079 is for the addition of 36 employees in the code enforcement inspection section, an additional $396,000 for demolition work, and a five per cent cost of living increase for all employees in the compensation plan and for increase in union wage scales.

Over the past five years, as community organizations and citizens have become aware of the city's building inspection program, the number of inspections nearly doubled. In 1969 alone the building inspectors made 72,000 neighborhood inspections. In addition, 12,000 inspections were made under the rodent control program. Inspectors handled 12,000 court cases and the Department demolished 1,400 dangerous buildings.

The sharp increases in various building department activities required drastic changes in its program. Substandard housing in Chicago must be swiftly brought up to code, and so time-saving methods have been introduced in the Department.

Computers will be utilized in 1970 which will do the work of eight manual typewriters in issuing violation notices. They will also free inspectors from paper work. New personnel practices have been put into effect and training has been stepped up. A team of inspectors has been assigned specifically to court cases, relieving all other inspectors of this activity and freeing them for neighborhood inspections.

Yet, the city must press for an acceleration in the effort to eliminate slums and slum conditions. Buildings remain which, as fire hazards and a danger to children, jeopardize local communities. Thus, demolition must continue and the budget allocates an additional $396,000 for this purpose.

### *Streets and Sanitation*

The Department of Streets and Sanitation increase of $4,726,733 includes the cost of operating the new Northwest incinerator and two bulky trash facilities.

Refuse collection service was expanded in 1969 and 3,200 blocks in highly populated areas received twice-a-week service during the summer. During the winter months, 750 blocks received expanded service. Further expansion is scheduled for next year with completion of delivery of 100 modern refuse collection trucks.

Two new bulky trash grinders will be in operation in 1970. In January, a new grinder will be established on Goose Island and in the summer, another will go into the new incinerator plant at Kenton and Chicago. These bulky trash grinders by reducing long hauls will mean a saving in tax dollars through more efficient performance.

The two new grinders will help relieve the pressure on existing equipment occasioned by the increased volume on the collection of bulky trash which has placed serious demands on limited equipment and personnel.

Also in 1969, five new ward facilities were completed—to better serve their neighborhoods.

Late next year, the new 1600 ton incinerator will be completed. It is of the latest design and is equipped with the most modern air pollution control equipment. The new facility will reduce the city's use of garbage dumps, and will permit twice a week refuse collection in many more blocks.

The Department this summer began a novel and massive program to clear the streets of thousands of abandoned and derelict vehicles. Chicago is the first major city to approach this national problem on such a broad scale.

Under the new system, abandoned vehicles which are classified as "derelict" are hauled directly to the processor, thus relieving the crowding of city auto pounds and the double-handling of these vehicles.

The Chicago Skyway Toll Bridge was used by more than nine million passenger and commercial vehicles during the year, producing a 20 per cent increase of revenues, reaching $4 million dollars for the first time.

A new program to hire hard-core unemployed was eminently successful and 700 men were trained in refuse and bulky trash collection. For many of these trainees, the program included driver training and the men obtained chauffeur's licenses. They were hired after training by the city and by private industry.

An improved communications system involving two-way radios and teleprinters has been established and has proved extremely efficient in snow removal emergencies and on other occasions.

The Department also is experimenting with a new method of pavement repair which may prevent development of chuck holes after severe cold weather.

A survey to determine the total parking needs of the city has been undertaken by a consulting engineer acting under the recommendations of a parking advisory committee.

### *Priorities*

In this budget, like all others submitted by this administration, more than 80 per cent of the appropriation of the corporate budget is for these basic priorities—police, fire, health, sanitation, and building. These are services that directly affect the lives of all Chicagoans wherever they live.

We hear much about the future of cities. Whether they are manageable and whether they can be made good places to live and work. The answers must be predicated on the quality of fundamental services. In the sixties, with the support of this council and the people of Chicago, we have provided the basic services which are the basis for the fullest confidence that we can meet the challenges of the 1970's. We can do this because we have underway a host of programs that are designed to meet the problems of urbanization—designed to keep our city dynamic and viable.

Let us review some of the plans we have underway.

Indispensable to the economy and life of the city is transportation. Chicago is still the transportation center of the nation, and our city's vitality in the decade of the 70's depends greatly on our plans for safe and convenient air travel, on unencumbered routes for commerce and industry and on swift travel within the city itself. Our plans are not timid, and our concepts to meet these objectives are imaginative and comprehensive. The use of the median strips in our expressways for mass transportation is becoming a model for the nation. With the completion of the Kennedy expressway, the city will initiate a service which will permit workers to reach O'Hare Airport in 41 minutes for a 60 cents fare by riding the subway to the Jefferson Park terminal and then boarding an express C.T.A. bus. The Crosstown Expressway, which is in the active design stage, will not only provide for a new right of way for vehicles but serve as a means of creating new communities, expanding land for commercial and industrial purposes, and contributing directly in building of neighborhoods. The proposed new subway—which will be financed by special assessment and federal assistance, will eliminate the "L" structure and provide a transportation system which will serve the downtown area and the entire city.

Pressure of traffic at O'Hare Field and new fleets of giant jet aircraft require vast expansion appropriate for an international air travel center. Next year we are taking steps to acquire 700 acres of land at O'Hare in order to develop facilities for more cargo, an international terminal and more domestic terminal space to accommodate the larger jets. The airport will have more gate positions for airplanes, a fast modern system for moving passengers and a new runway, all of which will be paid for by the airlines and placed in construction next year.

Parking facilities have also been designed for the seventies and construction will begin next year on a five-deck parking structure believed to be the largest in the world. It will more than double the present parking capacity at O'Hare. We must be as certain as we can be that the third airport will meet the needs of a super jet age, and the city is conducting the most exhaustive studies for the best possible location.

Our seaport—the busiest on the Great Lakes—is still in its infancy and we have taken steps to improve its efficiency and security. In transportation, we are proving that cities can avoid strangulation, that cities can provide to every citizen the advantages of mass public transportation, and that in the 70's the advances in transportation will serve people— not vehicles.

As the concept of Crosstown is designing a highway while planning for community improvements, so the comprehensive Model Cities program plans to improve the quality of life along a broad range of fronts. This program offers us an opportunity to make a significant change in those neighborhoods which need help the most. Rather than patchwork, Model Cities is designed to create a new fabric so that the residents of these areas can help themselves in planning and operating programs for the improvement of their own neighborhoods.

The federally-financed Model Cities program is well underway with seven schools designated as Cooperatively Planned Urban Schools where children are being provided quality education with the use of the most modern equipment and most advanced teaching techniques. Parents are involved in the planning of the studies for these special community schools. The doors of the schools remain open evenings and week-ends so neighbors may use the school as a community center for educational and recreational programs. Teachers also are given additional training so they can become more familiar with the unique problems of the children of the area.

In other Model Cities projects, 2,500 residents will be hired to help staff health centers in each of the four Model Cities areas—to function as community aides for the Police Department and so develop better understanding between Police and residents—and to serve in day care centers, allowing mothers to be gainfully employed.

One hundred sixty local residents from Model Cities neighborhoods have been hired by the Department of Streets and Sanitation to help improve the appearance of these neighborhoods. They will report for work Monday. The Department of Streets is paying particular attention to these four model neighborhoods and with the use of federal funds is repairing streets and curbs and making more frequent trash collections.

Another new department of government—the Department of Human Resources—has proven its value already. The Department secured the help of the United States Agriculture Department in setting up a pilot supplemental food program for pregnant women, nursing mothers and infants. A nutrition program for more than 1,400 senior citizens in 31 areas was started. In cooperation, with the Chicago Transit Authority the Department sponsored a reduced fare program for senior citizens.

A pioneer program was begun during the year by the city to aid the victims of crimes. Initially the program is focusing on young people and making sure they receive the help necessary: medical care, financial and legal assistance. Since the program began, neighborhood workers have helped 577 young people and their families whose lives have been seriously affected by crimes.

There are many programs aimed at reducing crime and preventing the conditions which breed crime. As one facet of the effort to prevent crime, the city has a vast program of gun registration. Almost 400,000 guns are now registered and police have destroyed 12,000 weapons this year. Crime could be further prevented if the state adopted a similar gun registration law.

The Chicago Committee on Urban Opportunity is engaged in an active war against poverty. Nine community centers and five outposts are the centers where residents go for information and help. They are directed to job training and job placing facilities, are aided in family and legal problems, and are referred to health clinics and child-care centers.

The Neighborhood Youth Corps found jobs for more than 20,000 young people during the year.

No need is more basic to returning veterans than that of employment. Returning Vietnam War Veterans have received help in that direction from the city's Jobs for Vietnam Veterans service, which is conveniently located in City Hall. Since the unit was organized last year, more than 2,600 returning servicemen have been placed in jobs. Almost 8,000 persons received information and service related to jobs and veterans affairs.

Next summer we continue the summer job-finding program for young people. More than 35,000 received jobs, mainly in private industry through the efforts of the Mayor's Committee on Summer Jobs For Youth.

The Commission for Rehabilitation of Persons this past year helped more than 600 men who required an average hospitalization of 37 days. The outpatient clinic helped another 8,500 men and women. With a federal grant from the United States Department of Justice, a ten-bed detoxification, diagnosis and referral unit for public inebriates was established last August. The Commission also is studying means of providing hospital care for women patients. This was the first municipal institution of its kind in the country.

Persons in need of special care are the tuberculosis patients. The Municipal Tuberculosis Sanitarium cares for thousands of persons with this disease. Some 550 are hospitalized, and thousands more receive outpatient clinic care. The Municipal Tuberculosis Sanitarium this past year has instituted a program of inhalation therapy for patients with chronic respiratory distress which has resulted in about one-third of the group recovering sufficiently to be discharged to their homes. Next year MTS will provide facilities in the new Health Department Clinic at 6300 South Lowe.

Many have experienced the frustration of dealing with an unscrupulous merchant. But a person with limited funds who is cheated by fraudulent merchandising practices suffers more than frustration. And so the Department of Consumer Sales, Weights and Measures has stepped up its enforcement against unscrupulous merchants. More than a thousand complaints were investigated this year and eighty nine arrest notices were issued. Housewives were protected when more than 82 thousand packages were taken off the shelves because of violations. Next year the city will move against consumer frauds in more fields of marketing, advertising and services.

For the past two years the Chicago Public Library has reversed the previous three-year decline in circulation. Reading and borrowing of books increased almost two and a half percent in the first nine months of this year after a four per cent increase last year.

Two new branch buildings were constructed this year and a third is nearing completion in the Jefferson Park area. A fourth building now is in the blue print stage and sites have been acquired for two more branches in the neighborhoods.

Next year an architectural competition will determine the design for the complete renovation of the central library and what form the new addition will take.

Living in the city is enjoyable and last summer almost half a million youngsters found this to be true thanks to the Reach Out Program which included athletics, field trips, cultural projects, summer school, and special events.

One of the greatest challenges that faces the nation and the city in the seventies is the supply of housing. Chicago became a trailblazer by introducing the construction of prefabricated homes in large cities. A recent survey of the owners of 46 of these homes revealed that all but one were satisfied purchasers. In 1970, we will expand the program to a variety of manufacturers and builders to provide homes as quickly as possible to those who need good housing.

We must explore every new area of technological development to bring more housing to the city. In that respect the city has submitted four sites for Operation Breakthrough—a federal program using a systems engineering approach for speeding up the construction of housing for low and moderate income families.

In the past year more than 3,500 homes and apartments were completed or were under construction in urban renewal sites in neighborhoods throughout the city. Modern apartments will be made available next month in the Douglas-Lawndale rehabilitation project when 123 units are completed. Next year work will proceed on the rehabilitation of one thousand more apartments in the area.

Last month the Chicago Housing Authority received federal authorization to build three thousand new units of public housing—fifteen hundred for families and fifteen hundred for senior citizens. Work sites are now being selected.

To be completed next year are 110 apartments by a community not-for-profit organization which purchased 29 scattered lots from the CHA. It was the first sale by any public housing authority to not-for-profit developers. In another first, Racine Courts —a public housing development containing 121 apartments was sold as a cooperative to the tenants and residents of the community.

Next year, construction will begin to provide housing along Roosevelt Road and Madison Street on the west side. Four hundred units will be built in the first phase sponsored by community groups.

City and government agencies can only supplement the building resources of private industry. The city is doing everything in its power to encourage insurance companies and labor unions and corporations to invest their funds to meet this urgent demand.

Cities throughout the nation are also concerned about environmental control. Chicago is making strides in this area.

The city's program for the 1970's is highlighted by the construction of a four and one half mile tunnel 200 feet under Lawrence and Harding Avenues to prevent flooding and reduce water pollution. Storm water will flow into the tunnel, be stored and pumped to the waste treatment plant.

This project is the forerunner of a metropolitan program for the seventies. Chicago is taking the initiative for water pollution control with its proposal to link various governmental agencies in the construction of a 95 mile tunnel which will take the overflow from thousands of miles of city and suburban sewers. This deep tunnel will eliminate flooding and the necessity for ever polluting Lake Michigan with untreated sewage.

The subject of air pollution has been in the headlines since weather conditions created a high potential for pollution. On Thursday of last week, when the weather bureau gave its pollution alert, the city directed Commonwealth Edison to activate established plans and switch from coal consumption to gas. The utility company followed this procedure again on Friday at considerable expense and on the week-end diverted their operations to the suburban areas and returned to operation of gas on Monday. The company resumed normal operations on Tuesday when the weather bureau announced the clearing of conditions.

The city was able to take prompt action last week because last May the Department of Air Pollution Control made a third dry run of its three-phase emergency control plan.

There is much confusion concerning the recent smog conditions. In order to clarify the situation so that the public will be accurately informed, I have requested the National Air Pollution Control Administration of the United States Department of Health, Education and Welfare to review our air quality data recorded during that period, and from it make a factural statement that will clear up the misunderstanding which now exists.

Chicago has innovated techniques of air pollution control. It was the first city to effectively design and operate a telemetered air monitoring network which has reports available on fifteen minute intervals. The Chicago Control Plan is one of the very few emergency control systems in the land.

But there can be no real answer to air pollution until the problem is attacked on a regional basis, with federal standards—and regional enforcement.

In the summer of 1970 measures to significantly reduce air pollution become effective and fuel producers, dealers, industry, building managers and home owners will be required to comply with the most stringent air pollution laws in the country. An educational program to reach everyone is being carried on now. There will be no excuse for failure to comply.

The Department of Air Pollution Control has been recognized consistently as one of the most advanced in the nation. There is no government in the state that has invested the millions for clean air that Chicago has. In 1969, because of its preeminent position in the nation in the field of air pollution control, the federal government awarded two grants totalling one million dollars to the Department. Also this year, the Department helped 107 companies install control devices valued at $34 million dollars.

In another critical area of environmental control, the city is pioneering in a new method of refuse disposal. Throughout the nation there is a shortage of land-fill sites. With the cooperation of the federal government, the Department of Streets and Sanitation has been experimenting with a method of refuse compaction and solid waste disposal. After months of intensive tests, a research team under the direction of the American Public Works Association, found that the compaction method is feasible and economical. The report has been sent to the United States Public Health Service for evaluation. That agency's approval is expected shortly, and the next test will be actual rail haulage. A number of railroads have expressed deep interest in hauling the bales for use as fill in strip mines.

To improve our natural environment and to fight Dutch Elm disease, the city has this month added 15 crews and employed private contractors to remove dead and diseased trees.

The future of the city also depends on the soundness of its economic base. There has been an urgent need for the improvement of inner-city and underused areas for economic development. Under the leadership of the Committee for Economic and Cultural Development, millions of dollars in private investment, leading to the creation of 5,000 new jobs were added to the Stock Yards area of the city. To encourage this kind of private investment the federal government made grants to develop the area.

The Committee also was successful in contributing to the reversal of a trend which saw firms moving out of the city. In 1969 a survey showed that the net increase of new industries and plant expansion far outweighed the loss of those moving from the city.

A genuine break-through toward opening the area south of the Loop for development was made this year with the announcement that the railroads using the LaSalle Street and the Grand Central Stations would move their operations to other terminals. This railroad consolidation will clear more than 400 acres of valuable land for development as commercial and residential use in the seventies. It is expected that the remaining terminals on the south side will also be consolidated.

In another significant economic development, a planned development was established for use of the billion dollar building project on the Illinois Central Air Rights on Randolph Street. It is anticipated that the yearly real estate tax from the development will be an estimated 31 million dollars and it will provide housing for 35,000 people, as well as office space for thousands of workers.

And, as you all know, Chicago has experienced a building boom in the construction of high-rise apartments and office buildings and this record pace is expected to continue in the seventies.

Essential to the future of any of the city's programs is efficient performance and economy. The city now has the most modern computer equipment in a centralized data center. This is saving the taxpayer millions of dollars with a system of accounting and record control that contributes directly to better performance and elimination of duplication by many city departments.

Next year, the Mayor's Data center, in conjunction with the Comptroller's Office and Budgetary Division, will become one of the first cities to use an innovative system of accounting. It will install an on-line video terminal budgetary or appropriation accounting system. For the first time, the city's budget data will be on a computer file. The new system will provide direct access to up-to-date information on comparisons of actual with estimated costs, eliminate duplication of record keeping, improve financial reporting capabilities, and provide a data base to be used in budget preparation, performance measurement and program budgeting and reporting.

The city has completed and launched public works programs of great magnitude and improved many aspects of local government and urban life without affecting its fiscal integrity. Our city is in excellent financial position for the years ahead.

According to Dun and Bradstreet, the City's overall per capita debt as of October 1st, 1969, amounted to $177.68 compared with the average of $326.-48 for all cities over 500,000 population. Chicago had a net debt of $77.72 per capita compared with the average of $195.36.

Relating overall debt to assessed property valuations Chicago's ratio of 5.7 per cent is lowest amongst cities of over 500,000 population.

It is interesting to note that in 1968, forty out of fifty suburbs had higher property taxes than the city of Chicago. In addition, when one takes into account that in many suburbs, the charge for water is from two to four times that of Chicago consumers—that many suburbs have separate refuse and sewer charges—the conclusion is that Chicago property owners have one of the lowest tax burdens of any municipality in the county.

Property owners, as well as all other citizens must be vitally concerned with the coming constitutional convention and particularly the issue of home rule.

This city council had to step in and take over the responsibility of the state for the common school education by turning over Chicago's share of the 1969 income tax to the schools. If we had been able to use the money for the purpose for which it was intended we would have reduced the burden on the taxpayer of Chicago.

What better example do we need for the adoption of home rule than the action of the State Senate in refusing the Board of Education an increase in interest rates for the sale of tax warrants because of the tight money market. They refused the Board, while they passed 31 bills raising interest rates to seven percent on bonds. The money from the sale of tax warrants are used to run the schools. There can be no more compelling reason for home rule than the fact that some men in the Senate are willing to gamble on the possibility that the Chicago school system might be forced to close down.

We have cited many reasons why we can look forward with confidence to the future, but no action would give Chicago—as well as municipalities in the state—greater support in meeting the challenge of the decades ahead than a modern equitable constitution.

There can be no question, no doubt, no lack of confidence in the future of the city. We will move into the Seventies prepared to make Chicago a better place to live for all people.

The progress made in the last decade has been the result of teamwork and effort on the part of department heads and city employees working together with the common goal of improving services to the people.

The members of the city council can well take credit for their dedication and hard work which has resulted in the great gains and improvements in city government.

Council members, department heads, city workers and the citizens of Chicago have my heartfelt thanks and appreciation for their support and their unrestrained belief in the city.

Today's message is a summary of the highlights of the 1970 budget. I look forward to your recommendations, your suggestions and criticism to the end that when the budget is adopted it will truly serve the people of Chicago.

### Tribute Paid to Late Judge Walker Butler.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom, has called to his eternal reward the Honorable Walker Butler, Judge of the Circuit Court of Cook County, on November 15, 1969; and

WHEREAS, Judge Butler served this community with great dedication, legal capacity and integrity: he was an Assistant State's Attorney from 1926 to 1933, thereafter serving as an Assistant Illinois Attorney General for seven years; he was elected State Senator in 1942, representing the 13th Illinois Senatorial District, and his ability was recognized in having been named Republican majority whip in 1949, and president pro tem and majority leader in 1952. Among the significant measures he sponsored was the bill which established the Chicago Regional Port District at Lake Calumet. Judge Butler was elected to the Circuit Court bench in 1953 where he served for sixteen years until the present; he was head of the Chancery Division for two years and served as a member of the Executive Committee of the Circuit Court; and

WHEREAS, Judge Butler was a native Chicagoan and attended Chicago schools. He was graduated from Loyola University Law School and became a member of the Chicago, Illinois State and American Bar Associations. His interest in furthering legal education was evidenced by his having become a Professor of Law at the John Marshall Law School, a position he held for seventeen years; he was instrumental in organizing a Police Training School in Illinois; and

WHEREAS, He enjoyed a widespread reputation for compassion, fairness and kindliness and was known for his high ideals and firm loyalties to his fellow citizens, to his friends and mankind; now, therefore,

*Be It Resolved,* That the Mayor and members of the City Council in meeting assembled this 17th day of November, A.D. 1969, do hereby acknowledge our esteem for Walker Butler, and our deep sense of loss, and extend to his bereaved widow, Erva, and his sons, Walker, Jr., and Gary S., our most sincere condolences; and

*Be It Further Resolved,* That as a mark of respect to his memory, this resolution be incorporated in the permanent record of the Proceedings of the City Council, and that a copy thereof be presented to the family of Judge Walker Butler.

Alderman Bohling moved to *Suspend the Rules Temporarily,* to permit immediate consideration of and action upon said proposed resolution. The motion *Prevailed.*

On motion of Alderman Bohling (seconded by Aldermen Marzullo, Keane, Buchanan (for himself and Alderman Lupo)) the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

In their remarks the seconding Aldermen all lauded the late Judge for his many outstanding qualities while he was a member of the State Legislature and as a Judge. His contribution toward the establishment of Lake Calumet Harbor was cited as an outstanding accomplishment due to his hard work. All agreed that he had been an accomplished jurist, due to many, many hours spent reviewing and studying all phases involving the cases pending before him. It was noted that his loss was indeed a great one, not only for the City, but also for the County and State. All extended condolences to the bereaved family.

Honorable Richard J. Daley, thereupon addressed the Council, stating that he too had served in the State Legislature with Judge Butler. He spoke of him as having been a "reasonable" man, demonstrating sympathy and understanding to all, and especially to young people who appeared before him. He characterized the late Judge as a truly dedicated public servant, stating that the people of Chicago owed a great debt of appreciation to him for all his many helpful contributions. He concluded by extending his sympathy to the family, stating that he spoke for all Chicago and that all would truly miss him.

### Tribute Paid to Late Marshall F. Bynum.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

11.10-5 The Commissioner of Development and Planning may recommend and the Board of Zoning Appeals may provide such conditions or restrictions upon the construction, location and operation of a special use, including but not limited to provisions of off-street parking and loading, as shall be deemed necessary to secure the general objectives of this comprehensive amendment and to reduce injury to the value of property in the neighborhood.

An order of the Board of Appeals granting a variation in the nature of a special use shall be valid for a period not longer than twelve months from the date of such order unless a building permit is obtained or the use is commenced within such period. The Board may, at its discretion and upon adequate showing of cause, extend the period of validity of a variation in the nature of a special use for a period not to exceed [six (6)] *twelve (12)* months.

A change or increase in the area, bulk or function of any existing special use, or from those conditions specified by the Zoning Board of Appeals at the time of approval, shall constitute and be considered the same as a new and distinct special use, and as such shall be subject to the procedures for application, hearing, review and approval by the Zoning Board of Appeals as provided for in this section.

If a special use is discontinued for a period of six months or longer, such special use shall become null and void; and any subsequent reinstatement of the special use shall require a new special use permit.

By unanimous consent, the Regular Order of Business was temporarily suspended to present the winner's trophy to Loyola Academy Football Team, winners of the 1969 Chicago High School Football championship contest, the runner-up trophy to Lane Tech High School Football Team, winners of the Public-High School League and to Hubbard High School Football Team, winners of the new Blue-Green Division trophy.

Reverend Beall addressing the Council echoed Coach Spoo's statements and said that he was proud of his boys both on and off the field. Mr. Rothe extended his congratulations to Loyola Academy and thanked the Mayor and members of the Council for the opportunity to attend the Council meeting. He also expressed his pride in the members of the team and of the entire school.

The Mayor thereupon called to the rostrum the members of the newly created Blue-Green Division of the City Championship. He introduced the members of the Hubbard High School team, Roland Long, Principal, Andrew Gallagher, Coach and Co-captains, John Powers, Pete Beechick, Gerry Olmsted and Bob Longfellow. ### Tribute Paid to Late Joseph P. Kennedy.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom, has summoned to eternal life Joseph Patrick Kennedy, former ambassador to the Court of St. James's; and

WHEREAS, Ambassador Kennedy's origins had much to do with the shaping of his character—the ability to risk much in order to gain much, the will to succeed and to achieve, the toughness that endures struggle, the impulse toward excellence—these elements all made their appearance in the young man's first determined efforts within the Irish community of Boston, and despite the many worlds in which he lived, the shaping origins were never forgotten; and

WHEREAS, Ambassador Kennedy's career in business and finance are legendary; in banking, in real estate, in securities, in entertainment, he repeatedly exhibited the spectacular abilities that created one of the great fortunes of modern times; and

WHEREAS, Ambassador Kennedy earned public respect by performing in an exemplary fashion in the public service: as the first chairman of the Securities and Exchange Commission by appointment of President Franklin Delano Roosevelt he was responsible for writing stringent regulations for the protection of millions of investors; he served with distinction again when, as chairman of the Maritime Commission, he sought to reorganize the nation's merchant navy; he was then selected to serve as America's diplomatic representative in London as Ambassador to the Court of St. James's; and

WHEREAS, Joseph Kennedy was privileged to have as his wife a most remarkable woman, the gallant and magnificent Rose Fitzgerald Kennedy; together they raised what is without doubt one of the most extraordinary families in American history; and

WHEREAS, Ambassador Kennedy will long be remembered as the patriarch of a family that has captured the public imagination as have few others; as father of President John F. Kennedy and Senators Robert F. and Edward M. Kennedy, he reared men of courage and of hope, men with the rare gift of sensing, of articulating, and shaping the aspirations of a great nation; and

WHEREAS, Joseph Kennedy, through triumph and through tragedy, believed that "the measure of a man's success in life is not the money he's made. It's the kind of family he's raised." By this standard Joseph Kennedy was successful indeed, and it was a success in which we all share; now, therefore,

*Be It Resolved,* That the Mayor and members of the City Council of the City of Chicago, in meeting assembled this 2nd day of December, A.D. 1969, publicly declare their sense of loss in the death of Ambassador Joseph P. Kennedy and extend to his family their sincere sympathy; and

*Be It Further Resolved,* That this memorial resolution be spread upon the Permanent Record of the Proceedings of the City Council and that a suitable copy thereof be presented to Mrs. Rose Kennedy.

Alderman Keane moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon said proposed resolution. The motion *Prevailed.*

On motion of Alderman Keane the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

**Tribute Paid to Late Detective Oliver Singleton.**

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom, has called to his eternal reward, on November 27, 1969, Chicago Police Detective Oliver Singleton, who was wounded during a gun battle earlier this year; and

WHEREAS, Police Detective Singleton was a member of the Criminal Intelligence Unit of the Chicago Police Department; he was recognized throughout the Department as an exceptional policeman exercising that professionalism and devotion to duty which serves to regenerate, support and continue the high standards of the Chicago Police Department. The annals of bravery are enhanced by the fine police work accomplished by Detective Singleton, who had been assigned, among other policemen, to watch a certain plant which was believed to have been intended to be involved in the robbery of an armored car which serviced the plant. After having staked out the plant for three nights, three men were observed by police entering the driveway to the plant in an automobile; Detective Singleton and his partner drove their car onto the driveway blocking the path of the approaching automobile. The policemen announced their office and thereafter one of the three men jumped from their car and sprayed the officer's car with bullets. The policemen returned the fire, killing two of the three men. Detective Singleton was paralyzed from the neck down and lay near death for several days and thereafter entered upon the road to recovery. While still a patient at the Rehabilitation Institute, Detective Singleton was asked to testify against the surviving robber, from a stretcher in the courtroom, and his testimony was considered by the State's Attorney as having been critical for the case in which conviction was achieved; and

WHEREAS, Detective Singleton did not sacrifice his life in vain, but serves as an heroic example of all policemen who chose their careers with full knowledge that their service might at any moment demand the supreme sacrifice; we are again impressed with a greater appreciation of the valor of our City's policemen, who are called upon routinely to face hazardous situations and circumstances similar to that which took place involving Detective Singleton; now, therefore,

*Be It Resolved,* That the Mayor and members of the City Council of the City of Chicago, in meeting assembled this 2nd day of December, A.D. 1969, together with all the people of the City, by this resolution, hereby express our profound sorrow and regret upon the death of Police Detective Oliver Singleton, and further express their condolences to his wife, Patricia, his parents, Oliver and Rosalia, his sisters, Doralyn Young and Sally Haynes, and his brother, Robert; and

*Be It Further Resolved,* That as a mark of respect to his memory, this resolution be spread upon the Permanent Record of the Proceedings of the City Council of the City of Chicago, and that a suitable copy thereof be presented to the family of Police Detective Oliver Singleton.

# REPORTS AND COMMUNICATIONS FROM CITY OFFICERS.

### Ordinance Amended Authorizing Issue of $12,000,000 Municipal Building Bonds of City of Chicago and Providing for Levy of Taxes for Payment Thereof.

Honorable Richard J. Daley, Mayor, submitted the following communication:

OFFICE OF THE MAYOR
CITY OF CHICAGO

DECEMBER 9, 1969.

*To the Honorable, the City Council of the City of Chicago:*

GENTLEMEN—At the request of the City Comptroller, I transmit herewith for your consideration a proposed ordinance, the effect of which is to permit $12,000,000.00 of Municipal Building Bonds to be sold at a discount so that the actual effective rate will not exceed 6%. In today's market, I am advised by the Comptroller that to sell the Bonds at par, with a 5% interest limitation, would be an impossibility.

I request your approval of this proposal.

Very truly yours,
(Signed) RICHARD J. DALEY,
*Mayor.*

Alderman Keane moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon said proposed ordinance. The motion *Prevailed.*

On motion of Alderman Keane said proposed ordinance was *Passed,* by yeas and nays as follows:

*Yeas*—Aldermen Roti, Hubbard, Metcalfe, Holman, Despres, Rayner, Bohling, Lupo, Buchanan, Bilandic, Swinarski, Staszcuk, Burke, Sheridan, Shannon, Hines, Fitzpatrick, Campbell, Frost, Kuta, Collins, Marzullo, Zydlo, Sain, Jambrone, Biggs, McMahon, Keane, Gabinski, Brandt, Laskowski, Aiello, Casey, Cullerton, Laurino, Scholl, McCutcheon, Singer, Fifielski, O'Rourke, Wigoda, Sperling—42.

*Nays*—Alderman Hoellen.

Alderman Campbell moved to *Reconsider* the foregoing vote. The motion was *Lost.*

The following is said ordinance as passed:

Amending Section 4 of "An Ordinance authorizing the issue of $12,000,000 Municipal Building Bonds of the City of Chicago and providing for the levy of taxes for the payment thereof".

WHEREAS, On the 28th day of November, 1966, the City Council of the City of Chicago adopted an ordinance authorizing the issue of $12,000,000 Municipal Building Bonds of said City and providing for the levy of taxes to pay the same; and

WHEREAS, In and by Section 4 of said ordinance the City Comptroller was authorized to advertise for proposals for the purchase of said bonds and that the advertisement should provide that the bonds offered for sale shall bear interest not to exceed the rate set forth in the ordinance, and that the bonds so offered would be awarded by the City Comptroller to the purchaser offering to purchase the bonds at the lowest net interest cost to the City, provided that the acceptable bidder shall offer to pay not less than par and accrued interest for the bonds; and

WHEREAS, The ordinance authorizing the issuance of said bonds provided that the bonds bear interest at the maximum rate of five per cent (5%) per annum, which was the maximum rate of interest authorized for said bonds at the election held when a majority of the electors voting on the question approved such bonds; and

WHEREAS, Money market conditions throughout the United States have materially changed since such election was held, interest rates having increased upon all types of securities, even to the extent of affecting the millions of dollars of outstanding United States Government Bonds, and drastically decreasing the market value of millions of dollars of bonds of municipalities that have been voted bearing a fixed maximum rate of interest; and

WHEREAS, The City Comptroller has found that bids cannot be received for the sale of the bonds authorized by said ordinance and that the sale of said bonds at par at this time is impossible; and

WHEREAS, The City Comptroller proposes to give extensive publicity to the sale of said bonds in the Chicago Today, a newspaper published and having a general circulation in the City of Chicago, and in The Bond Buyer, a financial newspaper published in the City of New York, New York, so as to determine the market value of the bonds, and to accept the best bid for said bonds whether such bid is at par or at a discount; and

WHEREAS, The work is in progress for which said bonds were authorized and it is imperative that the bonds be sold from time to time in order to produce the funds necessary to carry on such work; now, therefore,

*Be It Ordained by the City Council of the City of Chicago:*

SECTION 1. That Section 4 of an ordinance entitled "An Ordinance authorizing the issue of $12,000,000 Municipal Building Bonds of the City of Chicago and providing for the levy of taxes for the payment thereof", adopted by the City Council of the City of Chicago on the 28th day of November, 1966, be and is hereby amended to read as follows:

"Section 4. The bonds hereby authorized shall be executed as herein provided and thereupon shall be deposited for safekeeping under the direction and control of the City Comptroller and shall be sold and delivered by the City

Comptroller as the proceeds are needed for the purpose for which the bonds are authorized.

The City Comptroller shall advertise for proposals to purchase said bonds; such advertisement shall be published once in the Chicago Today, being a newspaper having a general circulation in the City of Chicago, and once in The Bond Buyer, a financial newspaper published in the City of New York, such publication to be made at least ten days prior to the date when bids for the purchase of said bonds will be opened.

The advertisement for proposals shall recite that the bonds so offered will be awarded by the City Comptroller to the successful bidder offering to purchase such bonds at the lowest net interest cost to the City. If any or all of said bonds are sold at a discount such sale shall be approved by the City Council by ordinance, which will recite the amount of bonds so sold, their maturities, interest rate and the discount for each maturity. If any or all of the bonds are sold bearing a rate of interest of less than five per cent (5%) per annum, such sale shall be approved by the City Council by ordinance which will recite the amount of bonds so sold, their maturities and interest rate, and adopt an ordinance which shall set out the amount of taxes to be extended and collected so as to produce in each of such years sufficient money for the payment of interest upon such bonds at such lesser interest rate as the same becomes due. Said ordinance shall direct the County Clerk of Cook County to reduce and abate the amount of taxes hereby levied for the payment of interest upon the bonds so sold so that the amounts to be extended and collected in each of said years for payment of interest thereon will equal the amount of such interest computed at the rate of interest less than five per cent (5%) borne by the bonds that were sold and delivered.

A certified copy of said ordinance shall be filed in the office of the County Clerk of Cook County, which shall constitute direction and authority for such reduction and abatement of taxes so levied for payment of interest on such bonds.

SECTION 2. That this ordinance shall be published within ten days after adoption and shall be in force upon its adoption and publication as by law provided.

## Governor Requested to Implement Acquisition of Edgewater Golf Club Property for Use as State Park.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

> WHEREAS, There is located within the City of Chicago a ninety-two acre tract of land at Western and Pratt Avenues, formerly owned by the Edgewater Golf Club, which sold the land to real estate developers for the establishment of a shopping center and high-rise apartment building complex; and
>
> WHEREAS, Apprised of the great need for recreational space within the City of Chicago, and the suitability of the Edgewater Golf Club site as an appropriate location for said purposes within the City of Chicago, the Illinois Legislature, with much publicity and fanfare, proposed and passed House Bill No. 2058 which appropriated the sum of $950,000 to the Illinois Department of Conservation for the acquisition of said site for use as a State Park; and
>
> WHEREAS, House Bill No. 2058 was signed by the Governor, amid great swells of publicity and flourishes of public interest, on October 9, 1969. Said bill contains the proviso that no part of the sum appropriated may be obligated without the written consent of the Governor; and
>
> WHEREAS, The purchasers of the property thereafter submitted an application for construction permits to the Department of Buildings of the City of Chicago seeking to proceed with their proposed development, which application was delayed in anticipation of the acquisition of the Edgewater Golf Club site for use as a State Park. Thereafter, in a letter dated November 3, 1969, Mayor Richard J. Daley advised the Governor that the owners of the Edgewater Golf Course property had filed an application for permits to commence construction of a high-rise apartment building on the subject property and urged the Governor, on behalf of the people of the City of Chicago, to direct the appropriate divisions of the State government to proceed to acquire the property for a State Park, to which the Governor dispatched a polite reply; and
>
> WHEREAS, The owners of the Edgewater Golf Club property thereafter, on November 5, 1969, filed a Petition for a Writ of Mandamus seeking Court intervention for the purpose of securing the requested building permits. Mayor Richard J. Daley advised the Governor by telegram of the litigation pending inviting his attention to the fact that the matter would be heard in the Circuit Court of Cook County on December 8, 1969, and again strongly urged him to act in the interest of the people of the City of Chicago who needed the Governor's help in order to preserve the subject area for recreation and prevention of its development for high-rise multiple apartment uses, specifically requesting the Governor to authorize the expenditure of the funds provided by House Bill No. 2058 and to request the Attorney General of Illinois to commence appropriate action to acquire the property, but again received a polite reply in response thereto; and
>
> WHEREAS, The Circuit Court of Cook County proceeded with the trial of the issues on Monday, December 8, 1969, despite the City's motions seeking to strike the complaint in view of the provisions of House Bill No. 2058 and its proposed use as a State Park, vigorously seeking to delay further legal action until the acquistion could be commenced and completed; nevertheless, upon trial of the issues, the Circuit Court ordered the issuance of the building permit requested; and
>
> WHEREAS, The City of Chicago will continue to pursue every avenue available to it to see the plans for use of the Edgewater Golf Club site as a recreational State Park come to fruition by every legal means available to it, so that the needs of the citizens of the City of Chicago for recreational areas may be fulfilled; however, the Governor's cooperation is essential and the City Council hereby again requests the Governor to proceed with all haste and dispatch to direct the Department of Conservation and request the Attorney General of Illinois, which and who may not be fully apprised of the urgency herein presented both as to the needs of the citizens of the City of Chicago; and the necessity for immediate action to take the earliest possible steps to acquire the Edgewater Golf Club site forthwith for use as a State Park; now, therefore,
>
> *Be It Resolved,* That the Mayor and members of the City Council of the City of Chicago hereby urgently request the cooperation of the Governor of the State of Illinois to direct the Illinois Department of Conservation and to request the Illinois Attorney General to now take immediate steps to acquire the Edgewater Golf Club property located within the City of Chicago for use as a State Park, as provided under House Bill No. 2058.

WHEREAS, The Local Issuing Agency and the United States of America (herein called the "Government") recognize the desirability of the Local Issuing Agency obtaining funds for the purpose described in the aforementioned ordinance from sources other than the Government despite the existence of abnormally high interest rates which presently prevail in the private money markets; and

WHEREAS, The Government proposes to enable the Local Issuing Agency to continue to obtain loan funds from sources other than the Government by the Government making payment of a supplemental grant and placement fee, where necessary, to the purchaser or purchasers of the Local Issuing Agency's Project Notes being awarded on the 12th day of November 1969 (herein called the "Notes"); now, therefore,

*Be It Ordained by the City Council of the City of Chicago:*

SECTION 2. The Commissioner of Urban Renewal of the Local Issuing Agency is further authorized and directed to accept, on behalf of the Local Issuing Agency, a fully executed waiver to the Loan and Grant Contracts between the Local Issuing Agency and the Government, such waiver to relate to the award of the Notes and to be offered by the Government.

A. That no property transferred by this instrument shall be used, leased, sold, salvaged, or disposed of by the grantee for other than the airport purposes without the written consent of the Administrator of the FAA. The term "property" as used herein is deemed to include revenues or proceeds derived therefrom.

B. Property transferred for the development, improvement, operation or maintenance of airport shall be used and maintained for the use and benefit of the public on fair and reasonable terms, without unjust discrimination. In furtherance of this covenant (but without limiting its general applicability and effect) the grantee specifically agrees (1) that it will keep the airport open to all types, kinds, and classes, of aernouatical use without discrimination between such types, kinds and classes. Provided, that the grantee may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the airport as may be necessary for the safe and efficient operation of the airport; and provided, further, that the grantee may prohibit or limit any given type, kind, or class of aeronautical use of the airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public. (2) That in its operation and the operation of facilities on the airport, neither it nor any person or organization occupying space or facilities thereupon will discriminate against any person or class of persons by reason of race, color, creed, or national origin in the use of any of the facilities provided for the public on the airport. (3) That in any agreement, contract, lease, or other arrangement under which a right or privilege at the airport is granted to any person, firm or corporation to conduct or engage in any aeronautical activity for furnishing services to the public at the airport, the grantee will insert and enforce provisions requiring the contractor: (a) to furnish said service on a fair, equal and not unjustly discriminatory prices for each unit for service, provided, that the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers. (4) That the grantee will not exercise or grant any right or privilege which would operate to prevent any person, firm, or corporation operating aircraft on the airport from performing any services on its own aircraft with its own employees (including, but not limited to maintenance and repair) that it may choose to perform. (5) That in the event that grantee itself exercises any of the rights and prileges referred to in subsection (3) above the services involved will be provided on the same conditions as would apply to the furnishing of such services by contractors or concessionaries of the grantee under the provisions of such subsection (3) of this paragraph 9B.

C. The grantee will not grant or permit any exclusive right for the use of the airport at which the property described herein is located which is forbidden by Section 308 of the Federal Aviation Act of 1958, as amended, by any person or persons to the exclusion of others in the same class and will otherwise comply with all applicable laws. In furtherance of this covenant (but without limiting its general applicability and effect), the grantee specifically agrees that, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm or corporation the exclusive right to conduct any aeronautical activity on the airport including but not limited to, charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales, and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity. The grantee further agrees that it will terminate as soon as possible and no later than the earliest renewal, cancellation, or expiration date applicable thereto, any exclusive right existing at any airport owned or controlled by the grantee and that, thereafter, no such right shall be granted. However, nothing contained herein shall be construed to prohibit the granting or exercise of an exclusive right for the furnishing of nonaviation products and supplies or any service of a nonaeronautical nature or to obligate the grantee to furnish any particular nonaeronautical service at the airport.

D. The grantee shall, insofar as it is within its powers and to the extent reasonable, adequately clear and protect the aerial approach to the airport. The grantee will, either by the acquisition and retention of easements or other interests in or rights for the use of land airspace or by the adoption and enforcement of zoning regulations, prevent the construction, erection, alteration, or growth of any structure, tree, or other object in the approach areas of the runways of the Airport which would constitute an obstruction to air navigation according to the criteria or standards prescribed in Part 77 of the Federal Aviation Regulations, as applicable, according to the currently approved airport layout plan. In addition, the grantee will not erect or permit the erection of any permanent structure or facility which would interfere materially with the use, operation, or future development of the Airport, in any portion of a runway approach area in which the grantee has acquired, or may hereafter acquire, property interest permitting it to so control the use made of the surface of the land. Insofar as is within its power and to the extent reasonable the grantee will take action to restrict the use of the land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations including landing and take-off of aircraft.

E. The grantee will operate and maintain in a safe and serviceable condition, as deemed reasonably necessary by the Administrator of the FAA, the airport and all facilities thereon and connected therewith which are necessary to service the aeronautical users of the airport other than facilities owned or controlled by the United States and will not permit any activity thereon which would interfere with its use for airport purposes: Provided, that nothing contained herein shall be construed to require that the airport be operated for aeronautical uses during temporary period when snow, flood, or other climatic conditions interfere with such operation and maintenance, repair, restoration or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the grantee.

F. That the grantee will make available all facilities of the airport at which the property described herein is located or developed with Federal aid and all those usable for the landing and taking off of aircraft to the United States at all times, without charge, for use by aircraft of any Agency of the United States in common with other aircraft, except that if the use by aircraft of any Agency of the United States in common with other aircraft, is substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged; and unless otherwise determined by the FAA, or otherwise agreed to by the grantee and the using Federal Agency, substantial use of an airport by United States aircraft will be considered to exist when operations of such aircraft are excess of those which, in the opinion of the FAA would unduly interfere with use of the landing area by other authorized aircraft or during any calendar month that (1) either five (5) or more aircraft of any Agency of the United States are regularly based at the airport or on land adjacent thereto, or (2) the total number of movements (counting each landing as a movement and each take-off as a movement) of aircraft of any Agency of the United States is 300 or more, or (3) the gross accumulative weight of aircraft of any Agency of the United States using the airport (the total movements of such Federal aircraft multiplied by gross certified weights thereof) is in excess of five million pounds.

G. That during any national emergency declared by the President of the United States of America or the Congress thereof, including any existing national emergency, the Government shall have the right to make exclusive or nonexclusive use and have exclusive or nonexclusive control and possession without charge, of the airport, or of such portion thereof as it may desire, provided, however, that the Government shall be responsible for the entire cost of maintaining such part of the airport as it may use exclusively, or over which it may have exclusive possession or control, during the period of such use, possession, or control, and shall be obligated to contribute a reasonable share, commensurate with the use made by it, of the cost of maintainance of such property as it may use nonexclusively or over which it may have nonexclusive control and possession: Provided, further, that the Government shall pay a fair rental for its use, control, or possession, exclusively or nonexclusively, of any improvements to the airport made without United States aid, and never owned by the United States.

H. The grantee does hereby release the Government, and will take whatever action may be required by the Administrator of the FAA to assure the complete release of the Government from any and all liability the Government may be under for restoration or other damage under any lease or other agreement covering the use by the Government of the airport, or part thereof, owned controlled or operated by the grantee, upon which, adjacent to which, or in connection with which, any property transferred by this instrument was located or used: Provided, that no such release shall be construed as depriving the grantee of any right it may otherwise have to receive reimbursement under Section 17 of the Federal Airport Act of 1946, as amended, for the necessary rehabilitation or repair of public airports heretofore or hereafter substantially damaged by any Federal agency.

I. That whenever so requested by the FAA, grantee will furnish without cost to the Federal Government, for construction, operation and maintenance of facilities for air traffic control activities, or weather reporting activities, or communication activities related to air traffic control, such areas of the property described herein or rights in buildings on the airport at which the property described herein is located, as the FAA may consider necessary or desirable for construction at Federal expense of space or facilities for such purposes, and the grantee will make available such areas or any portion thereof for the purposes provided herein within 4 months after receipt of written request from the FAA, if such are or will be available.

J. The grantee will: (1) furnish the FAA with annual or special airport financial and operational reports as may be reasonably requested using either forms furnished by the FAA or in such manner as it elects so long as the essential data are furnished, and (2) upon reasonable request of the FAA; make available for inspection by any duly authorized representative of the FAA the airport, at which the property described herein is located, and all airport records and documents affecting the Airport, including deeds, leases, operation and use agreements, regulations, and other instruments and will furnish to the FAA a true copy of any such document which may be reasonably requested.

K. And, that the grantee will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform or comply with any or all of the covenants and conditions set forth herein unless by such transaction the obligation to perform or comply with all such covenants and conditions is assumed by another public agency found by the FAA to be eligible as a public agency as defined in the Federal Airport Act of 1946, as amended, to assume such obligation and have the power, authority, and financial resources to carry out all such obligations and, if an arrangement is made for management or operation of the Airport by any agency or person other than the party of the second part, it will reserve sufficient rights and authority to insure that such Airport will be operated and maintained in accordance with these covenants and conditions, any applicable Federal statute, and the Federal Aviation Regulations.

L. And, that the grantee will keep up to date at all times an airport layout map of the Airport at which the property described herein is located showing: (a) the boundaries of the Airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the grantee for airport purposes and proposed additions thereto; (b) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars, and roads), including all proposed extension and reductions of existing airport facilities: (c) the location of all existing and proposed nonaviation areas and of all existing improvements thereon and uses made thereof and such airport layout map and each amendment, revision, or modification thereof, shall be subject to the approval of the FAA, which approval shall be evidenced by the signature of a duly authorized representative of the FAA on the face of the airport layout map, and the grantee will not make or permit the making of any changes or alterations in the airport or any of its facilities other than in conformity with the airport layout map as so approved by the FAA, if such changes or alterations might adversely affect the safety, utility, or efficiency of the airport.

M. And, that if at any time it is determined by the FAA that there is any outstanding right or claim of right in or to the airport property, described herein, the existence of which creates an undue risk of interference with the operation of the airport or the performance of compliance with covenants and conditions set forth herein, the grantee will acquire, extinguish, or modify such right or claim of right in a manner acceptable to the FAA.

N. That in the event that any of the aforesaid terms, conditions, reservations, or restrictions are not met, observed, or complied with by the grantee or any subsequent transferee, whether caused by the legal inability of said grantee or subsequent transferee to perform any of the obligations herein set out, or otherwise, the title, right of possession and all other rights transferred by this instrument to the grantee, or any portion thereof, shall at the option of the grantor revert to the grantor in its then existing condition sixty (60) days following the date upon which demand to this effect is made in writing by the Administrator of the FAA or his successor in function, unless within said sixty (60) days such default or violation shall have been cured and all such terms, conditions, reservations and restrictions shall have been met, observed, or complied with, in which event said reversion shall not occur and title, right of possession, and all other rights transferred hereby, except such, if any, as shall have previously reverted, shall remain vested in the grantee, its transferees, successors and assigns.

O. That if the construction as covenants of any of the foregoing reservations and restrictions recited herein as covenants or the application of the same as covenants in any particular instance is held invalid, the particular reservation or restrictions in question shall be construed instead merely as conditions upon the breach of which the Government may exercise its option to cause the title, interest, right of possession, and all other rights transferred to the grantee, or any portion thereof, to revert to it, and the application of such reservations or restrictions as covenants in any other instance and the construction of the remainder of such reservations and restrictions as covenants shall not be affected thereby.

(Note: See Paragraph 16 of Application concerning assurance of compliance with General Services Administration Regulations under Title VI of the Civil Rights Act of 1964. The exact wording will be included in the Quitclaim Deed to be executed by the parties.)

AGREEMENT

This Agreement, made and entered into this....

Whereas, The City of Chicago desires to replace the existing viaduct with a new structure of modern design and construction; and

Whereas, The City and the railroads desire to enter into an agreement to accomplish the construction of a new viaduct at Halsted-Kinzie-Wayman Streets in Chicago upon and subject to the limitations, terms and conditions hereinafter set forth.

WITNESSETH:

Now, Therefore, In consideration of the premises and the covenants and agreements hereinafter contained, it is agreed by and between the parties hereto as follows:

Subject to Section 14 hereof, City and its constructors shall at all times during and after the construction of the viaduct project shall conform to all laws, regulations and general orders of the Illinois Commerce Commission.

Section 7. The railroads, at the City's expense will furnish all material, labor and equipment required for the temporary relocation or adjustment of their facilities at this location which may be necessary to permit the performance of work covered herein. The City shall promptly reimburse the railroads for such expense upon receipt of railroad bills for such work.

Section 8. The railroads shall furnish flagmen and other suitable personnel to the City's contractors for flagging protection during the viaduct project. The railroads shall have control and direction of said personnel during the progress of the work, but the City shall require its contractors to assume the entire risk and responsibility for said flagmen or other personnel and their acts and omissions. The rate of pay shall be the prevailing railroad rate in effect at the time the work is performed, and the City shall require its contractors to reimburse and indemnify the railroads for the entire cost and expense of such flagmen including their acts and omissions, and protective measures upon receipt of bills from the railroads and the City, shall withhold final payment from its contractors until the railroads have notified the City that said bills have been paid.

Section 9. The City shall require its contractors to indemnify and save harmless the railroads from and against any and all liability, damages, cost and expense for loss or damage to property whatsoever and injury to or death of persons whomsoever arising or growing, in whole or in part, out of or in connection with the performance of any of the work on the construction of said Halsted-Kinzie-Wayman street viaduct, or the presence of any such property or persons on the premises of the railroads at the site of said project, even though the operations of the railroads may have caused or contributed thereto. The foregoing provisions of this Section 9 shall not apply when such damages, costs and expense are caused by the sole negligence of the railroads.

Section 10. The City further agrees to provide railway Protective Liability Insurance providing for a limit of not less than $500,000 for all damages arising out of bodily injuries to, or death of one person, and subject to that limit for each person, a total of $1,000,000 for all damages arising out of bodily injuries, or death of, two or more persons in any one accident, and Property Damage Insurance providing for a limit of not less than $500,000 for all damages arising out of injury to or destruction of property in any one accident and, subject to that limit per accident, a total (or aggregate) limit of $1,000,000 for all damages arising out of injury to or destruction of property during the period of construction.

In addition, the City agrees that before any work is commenced its contractors will furnish evidence to the railroads that each contractor is protected with Public Liability and Property Damage Insurance with limits not less than those listed above.

Section 11. Fifteen days after the completion of the substructure of the viaduct, the railroads will collectively contribute 12½% of the estimated cost of the entire new viaduct structure, except that said partial contribution shall not exceed $262,500.00. Fifteen days after the completion of the superstructure of the viaduct, the railroads will collectively contribute 10% of the estimated cost of the entire new viaduct structure, except that said partial contribution shall not exceed $210,000.00. At the time the actual cost of the entire project is subsequently determined, but no later than 60 days after the project is open for public use, the railroads shall contribute an additional 2½% of the actual cost of the entire project, except that in no event shall the railroad's entire aggregate contribution for the entire viaduct project exceed $525,000.00.

Section 12. An air rights easement covering necessary air rights for a 70 foot wide viaduct located over tracks of the railroads will be granted to the City by the railroads without cost.

Section 13. Upon completion of the new viaduct, the City will vacate that portion of Sangamon Street over these railroads' tracks and thereafter the present Sangamon Street viaduct over tracks of the railroads located in the City of Chicago will be removed by the railroads at railroad expense and the Sangamon Street crossing will be closed. The City shall cause to be done and shall secure all necessary authority to vacate the Sangamon Street crossing and viaduct. During construction of the new viaduct, the Sangamon Street viaduct will not be used as the main detour route for traffic to and from Halsted Street. In the event the City at some future date determines that Sangamon Street needs to be reopened and a viaduct crossing established there at pursuant to authority from the Illinois Commerce Commission, the railroads will not oppose such a new construction or request for authority for such construction but will reserve the right to litigate the question of the apportionment of the cost of such a new structure in the event no agreement as to railroad contribution, if any, is reached with the City.

Section 14. Minimum vertical clearances under the new viaduct shall be the vertical clearances shown on city drawing No. 30640, file No. 11-853-82, dated May 3, 1968. In the event such clearances are less than those required by regulation of the Illinois Commerce Commission the parties shall file with the Commission an appropriate application for relief from existing clearance regulations.

Section 15. In the event that Sangamon Street is not vacated over railroad tracks as described in Section 13 above, the railroads' total contribution for the new viaduct structure at Halsted-Kinzie-Wayman Streets will be limited to 15% of the actual cost of the project subject to a maximum limit of $315,000, and the City shall refund any and all moneys previously paid by the railroads under this agreement above 15% of the actual cost subject to a maximum aggregate contribution of $315,000 plus interest at 7% upon written demand by the Railroads.

Section 16. Subject to Section 13, the Railroads agree to waive any claim for its damages resulting from any changes of approach elevation which are caused by changes in minimum vertical clearances agreed to by the railroads. The City shall indemnify and save harmless the railroads from any and all cost, expense, loss or damage as a result of claims by the public or abutting landowners arising out of or connected with the viaduct project.

Section 17. This agreement shall be binding upon and inure to the benefit of the parties hereto, their successors and/or assigns.

Section 18. This agreement is executed by the City of Chicago pursuant to an Ordinance duly passed by its City Council on ............, 1969 (C. J. pp. .............).

32) No assignment or transfer of this agreement shall be made by the Village.

33) The Village hereby waives any defenses it may have by virtue of any governmental function it exercises in any action brought at law or equity under the terms of this contract.
